BELLVILLE, THURSDAY, NOV. 1.

City and Vicinity.

Six feet of funeral shirts. 15524. One street was made last night.

The Rev. R. C. Church in Deseronto will be opened on Sunday next.

TODAY is All Saint's Day. Services will be held in the church this morning.

SAFON TROUT, lake trout, and white fish, cannot be caught from the 1st to the 10th November.

Mrs. Henry PRINGLE, nee Miss M. Furlow, has the INTELLIGENCER's thanks for a piece of her bridal cake.

The vital statistics for October as recorded in the books of the City Clerk make the following exhibit: Births 22, Marriages 10, Deaths 12.

The funeral of the late George Taylor took place yesterday afternoon from his late residence to his cemetery, and was very largely attended.

His Worship the Mayor dispensed justice in the Police Court this morning and dismissed Richard Fellows and Robert Wood, charged with being drunk.

The Licenses Commissioners of West Hastings met at Trenton on Tuesday, and granted a license to A. Parent for the Grand Central hotel in that town.

The youthful portion of the community celebrated Hallowe'en in the accustomed manner. They tore down fences, carried off gates and acted in a very noisy manner.

ORN.—David Southard, son of Mr. A. Southard, of Picton, and son-in-law of Mr. David Robin, of Picton, died, died in Denver, Colorado, on Saturday last, and was interred there on Monday.

A SUBSCRIPTION has been raised by the members of the Smith & Smith's family to aid the malleable workers from Oshawa, who are now out on strike. The fund was increased by contributions from the employees of the axe factory.

Mr. VERNON writes: "I think we are likely to experience a decided cold and wintry spell on Saturday, Sunday and Monday (3rd, 4th and 5th), when the temperature will fall considerably lower than hitherto this season, and snow falls will be recorded at many points."

True Blue of this city will celebrate the anniversary of the Gunpowder Plot on Monday evening next, by a ball in the City Hall. They have engaged the orchestra of the Oddfellows' and Military Band and are making every preparation to have the event a complete success.

Shortly after one o'clock this morning Mrs. Ganjot was startled by a noise which emanated from the kitchen of her residence. The members of the household were awakened and one of the boys fired off a gun. It was thought that burglars had again visited the house, but fortunately it was not the case. The noise was probably created by the mischievous pranks of some boys who were celebrating Hallowe'en.

A FREE for all fight took place about noon to-day in front of Tichall's grocery store. A dispute arose between two Englishmen, and after they had exchanged several blows their friends interfered and a general row took place. The combatants were a party who witnessed the combat.

A BART of ten drams of tobacco belonging to the Ontario Lumber Co. made at Bellville, and on Tuesday, in favor of the Ontario for Quebec, broke above Collinay. Five drums were completely wrecked; the other five were lowered into Collinay. The lumber floated to the bay, and has since been recovered.

Entrance was effected by turning the key, which was left in the lock of the door. With the aid of a dark lantern a survey of the interior was made. Mrs. Burdett, as, was awakened by a noise made by the burglars and lighted a candle which was in her room. All at once she heard the old lady again retorted. Soon after the burglar, who had been with her, snatched the candle and escaped the room and then departed. Again he returned in company with another man and the old lady, thoroughly frightened, called "murder." Mrs. S. B. Burdett and Miss Burdett, who slept in an adjoining apartment, were awakened by the old lady's calls and came into the hall, each armed with a revolver. Mrs. Burdett, who regarded the man as a thief, shot him, and he fled. The bullet which was fired by Mrs. Burdett was found this morning imbedded in the floor.

THE SAME party called again in the afternoon, and again the old lady, who was on guard, shot them. The old woman was very nearly dressed, good looking and carried a small hand pistol, but for what purpose could not be ascertained.

WEATHER PROGNOSTIC.—Toronto, Nov. 1.—Light winds and moderate gales from the west and northwest, fair weather, with snow flurries in some localities, lower temperature.

A RUNAWAY.

Mr. W. E. Spencer, who is removing from Prince Edward to this city, drove here this morning with a buggy in which he had a clock, a number of pictures and many other articles of household utility of a frail nature.

When nearly in front of the Bank of Commerce, he stopped to speak to Peter H. Miller, driving an open carriage.

He did not notice Mr. Spencer notwithstanding that the called to him, crowded his buggy onto the curb stone, when the two buggies collided, tearing a wheel off the buggy in which Mr. Spencer sat, throwing her out violently, emptying the buggy and demolishing most of the contents. The horse that dashed off and completed the destruction began by scattering the remains of the vehicle in the street. Although hurt about the face, Mr. Spencer is not dangerous.

MISS MARIA FURNIVAL.

Last evening Miss Maria E. Hart of this city, was married to Mr. Frank E. Miles of Utica. The bride was the daughter of a prominent husband and used to present a prominent young man who was a clock valued at \$100, the gift of the employee of the Hart & Smith Manufacturing Co. While the wedding was located in Toronto, Miss Hart acted as bookkeeper and won the esteem of the men by her agreeable manner and ladylike deportment. The clock was presented by Mr. George Brown, who made an appropriate address.

MISS MARIA FURNIVAL was united in the bonds of matrimony last night with Mr. Harry Pringle, of this city. The bride received a number of valuable presents. The happy couple have the best wishes of many friends for their future prosperity.

ANOTHER BLAZE.

A barn situated on the property of Mr. Michael McMahon, on the Jamieson road, just without the city limits, was burned last night about nine o'clock. It contained a family carriage valued at \$450 and a quantity of hay. The total loss is about \$100.

It is the opinion of the Royal Canadian Fire Department that the fire was of incendiary origin.

RIFLE AND TARGET.

The annual match of the 49th Batt. took place yesterday. The weather was unfavorable for good shooting, as a strong wind blew across the range and light at times, was bad. Appended is the result.

BELLEVILLE, FRIDAY, NOV. 2

City and Vicinity.

CHEESE to day 55c.
There were no arrests made last night nor were any burglaries reported.

The County Council will meet on the 27th.

In the Police Court to-day a drunk was dismissed by his worship the Mayor.

LEVI TAYLOR had a "small walk" on exhibition at his fish store to-day.

The Fife Jubilee Singers will appear here on the 15th.

Time dredge is at work on the bar near the now ferry pier.

That shamefully bad crossing at Front and Bridge streets remains unattended.

AUTUMN leaf productions are about used up, and the pods are getting ready for the beautiful snow.

"To make it hot" for rogues, put them in the "cooler." Such are the curiosities of slang.

The tramp is still visiting the country. It is the only thing to do some sour, sadly neglected work in this respect.

Do not put your old clothes in the rag box. Let them help to keep some poor mortal from shivering this winter.

The annual meeting of the Belleville Curling Club will be held at Hamby's this evening at eight o'clock.

The annual meeting of the Belleville Bible Society will be held in the City Hall, on Tuesday evening next.

About two o'clock this morning some persons visited the residence of Philip Hart, in Everett street. They however, did not gain an entrance.

At the Salvation Army meeting last night Miss Ryerson said that unless the collections were larger the army would be obliged to retire from this city.

The effect of the adoption of standard time will be to set the clocks back 6 minutes, as Montreal time has been used in Belleville for several months past.

A few days ago Will Keith, son of James Keith of J. M. Walker & Co., while on his return from school was struck on one of his eyes by one of his schoolmates with a stone.

One of Mr. E.G. Ponton's horses tried to run away this morning, while being driven up Elgin street. The driver at last got control of the animal and stopped it in front of the Market Square.

While the Hastings Rifle matches were in progress this morning, a boy named Chas. Rosever was hit near the knee by a bullet. The bullet struck Rosever in the right leg near the knee, and inflicted a small wound on the outer part. The injury is not serious.

Miss Mary B. Bosley and A. Dulmage have returned from a very successful hunting trip in the north woods. They succeeded in killing three of the "antlered monarchs of the woods" and about sixty partridges.

Trunks will be in constant repair, bolts, locks and receivers if the general rule of demand for these articles should continue. Every wall protected finally in this city has the most improved shooter known now.

A REPORT in circulation here to day states that a \$600 robbery had been committed in Kingston, and the Chief of Police is here. The wire was used to ascertain the truth of the report. This was returned that "there is nothing in it."

"OUR LITTLE OWLS AND THE NORMAN," published at 36 Bromfield St., Boston, by the Russell Publishing Company, is one of the very best of magazines for young children. The literary portion of the publication is at all times excellent and the illustrations are very good indeed. Only \$1.50 per year.

THE MAIL has the following news item under the heading of "Canada" — "The convention of delegates appointed at a public meeting at Belleville last Tuesday night for the purpose of nominating a candidate to fill the Mayor's chair for 1884 took place Wednesday evening, when Ald. M.T. Moore received the nomination." This is the first election of a mayor of Belleville not in Canada. There has been no convention of the kind named here, and Belleville has no Ald. M. T. Moore.

WINTER PROBABILITIES—Toronto, Nov. 2.—It looks to strong winds generally for a week, Grazeon, today the blizzard King H. B. Winslow, owned by J. B. Barnaby, of this city, with a running mate, defeated the boy gelding Frank and mate, owned by Jas. Keenan, of Boston, in three straight heats for \$2,000. The three heats were fastest over track, and the contest was very close. This is the second heat in a row, the first being the heat record 9.11, which was made by Dook and mate in 1882. One thousand people witnessed the race. The judges were John Sheppard and H. R. Hickford, of Boston, and C. S. Atwell of Providence. The meeting will be held in the Mechanics Institute to-night for the purpose of organizing a city foot ball club.

ARRIVAL OF ENTHUSIASM.—The *Whig* says the number of arrivals in the city has increased in this district by Mr. B. Macpherson in little less than that of last year. The returns show that the arrivals have been as follows: Jan. 30; February, 19; March, 49; April, 227; May, 1,319; June, 718; July, 704; August, 338; September, 240; a total of 3,046. To these may be added about 200 for October. The wages paid have been quite up to expectations. There are dozens of applications yet unfilled.

THREE seconds hand cars arrived yesterday at Kingston from New York, en route to Belleville. They are consigned to Mr. H. J. Hartly. They are of a strong build, and have been good carriages in their day.

MURDER OF A CANADIAN.

AT Mrs. Dr. Bennett, the celebrated New York Astronomer, was passing by the crimping wall of the Huron Opera House, next to Metropolitan Hall, this morning, a loose brick fell, hitting the lady on the shoulder with such force that it knocked her down. Had it struck her on the head it would have been a serious matter. "Madame Adela" says she can endure the perils of land and sea, mountains and lakes, storms and clouds, but she is no match for bricks.

RIFLE AND TARGET.

The annual matches of the Hastings Rifle Association began yesterday morning. The weather greatly militated against shooting, for the wind was strong, and the sun shone brightly and the light poor. The opening event was the "All Comers," the conditions of which were: Distances 200, 300, and 600 yards, 5 shots at each, the prize winners:

BELLEVILLE, SATURDAY, NOV. 3.

IRRESPONSIBLE MINISTERS.

Commenting on the recent changes in Cabinet offices, the Toronto *Telegram* says: "It is out of all harmony with the principles of responsible government that there should be a back entrance to the Cabinet. The people have a right to know who are in the cabinet, and the fitness or qualification of every man who occupies a place in it. ... And at the same time we expect their approval or disapproval of the Government's policy."

We do not know where *Telegraph* got its information as to the understanding which exists between the responsible Government in this country. Certainly it could not have been from either of the leaders of the great parties in this Dominion, as Mr. Mackenzie always had two or three Senators in his Cabinet, just as Sir John A. Macdonald had in both of his administrations.

In England, the birth place of responsible Government, there are about one-half of members of the Upper House who are members of the Cabinet. In fact, a majority of Mr. Gladstone's last Cabinet, previous to his present occupancy of office, was made up of members of the House of Lords. Further, members of the Lords have frequently been Premiers. It is thus that the principles of Responsible Government are understood in Great Britain, and it is thus that they are understood in Canada, despite the *Telegram's* statement to the contrary, which is a creation of its too vivid imagination.

The *Telegram* is an ardent advocate of Canadian responsible government, that is, of a Canadian Republic. Under such a constitutional form of government, as in the United States, there would undoubtedly be force in a conspirator's contention, as admission to the Cabinet would all be by the back entrance, the heads of the departments being chosen by the President and being responsible to him only.

If the *Telegram* does not want irresponsible Ministers, let it cease advocating a Canadian Republic.

EDITORIAL BREVITIES.

Our local conspirator professes to be the friend of the workingman, and shows his regard for his profession in true Grit fashion by employing boys to do nine-tenths of its work.

It also alleges that none but wealthy Tory editors have been able to take holidays during the winter. What is the partial holidays—half and three-quarter time—to which workingmen were reduced under Mr. Mackenzie's stern policy?

What can be done to induce him to desist from peddling, he is more or less amateur, but when we find the cotton operatives thrown out of work at the beginning of winter, protection of the cotton and any kind of it a mockery.—*London Advertiser*.

What is the English cotton operatives who have been thrown out of employment? Does the *Advertiser* blame protection for the depression of the cotton trade in free trade England?

The Hamilton *Tribe*, despite its Grit leanings, does not like the latest change in the Ontario Cabinet. It says:—

Mr. Mowat, evidently feeling the weakness of his position as the justice of the peace and the commander-in-chief of four of the provincial police forces, has decided to resign. South Oxford, has deemed it advisable in the interests of the Government, but it is too late to make a change. That will be the last straw, however, that the Hon. James Young, acting under the imperative orders of his physician, "has done his duty to the public," will not be spared as to prevent his resignation, the port folds, etc., the *Advertiser* is given to understand. His office is discharged by another of his colleagues. It would have been better for the Government to give the Hon. James Young leave of absence, and so far as Mr. Conroy concerned, obtain from the same obliging permission to remain in the cabinet, than his continued presence in the Cabinet should be a source of trouble to the Government.

It is but fair that one of the four constituents of the cabinet should be deprived of a portfolio, but it would be wise to afford South Oxford, and not No. 10 Broad Street, a chance to prove that a master of doubts which is the sicker of the few—Mr. Mackenzie's government or Mr. Young.

The Montreal *Globe* says: "The *Globe* has an unusual article entitled 'The causes of the depression.' It opens with the statement that 'in England and the United States the business depression is but partial; in Canada it is general.' In those countries there is no serious financial 'strike'—in Canada it is more serious 'indeed.' You are considering that the United States is a more highly protected country than Canada, and that makes it irresistible that the National Policy is in no way responsible for the depression which the Liberal organ has discovered. The cause must, therefore, be sought in some of the other disturbing influences to which the *Globe* refers."

A serious outbreak of typhoid fever in London recently revealed, says the Hamilton *Tribe*, that there is not only death in the "dram," but even in the innocent looking milk. No less than 220 of one milkman's customers at St. Pancras were

poisoned with typhoid, carried through milk, and in a single tenement house in Livingston, with 62 apartments, all who bought his milk—disease families—were attacked by fever, while the other families without exception escaped. Such facts as these naturally enough suggested the alarm. The alarm was traced to the Typhoid fever, which the cows drank from a pond into which the moisture of a neighboring cesspool percolated. That cesspool had been recently used by persons afflicted with typhoid fever. The vitality of typhoid fever must be remarkable, when it will pass through the earth without being killed by cold, and when, in their natural fluid, it is transported by rain into the heart of the great populous city of London, there to find conditions favorable to development. The lesson taught by these facts is a useful one, and not without application in this province.

The Pacific Railway Guarantee.

VIEW OF THE INDEPENDENT COMMERCIAL JOURNAL.

(From the *Montgomery Times*)

The guarantee has greatly increased the number of the road, who go to the government for the guarantee. This much is our gain. They have given vent to their rage in unmeasured terms. But they have over-shot the mark.

OBITUARY.

John K. Thompson died suddenly this morning at the residence of his brother, Mr. U. E. Thompson.

He had resided in this city and was in his forty fourth year. For the past four years he was engaged in the oil business in Pennsylvania and only a short time ago disposed of his interests there. During the latter part of September he returned home and has since resided with his brother. About three years ago he had a very severe illness from the effects of which he never thoroughly recovered. Only yesterday he drove to Oxt Point to examine some stones that had been gathered there. When he returned last night he appeared in the best spirits. This morning he was found dead at Uxbridge as was passing John's bedroom door he had a call, and on entering the apartment to ascertain the cause, John remarked, "I don't know what's the matter with me, I can't breathe." A physician was at once summoned but was unable to render any aid. The immediate cause of death was disease of the heart.

John K. Thompson, who was the third son of the late and respected townsmen John Thompson, was an exceptionally young man. He was prudent, careful and industrious, of a quiet and retiring disposition, and had many friends. He was an upright and honest man and his sudden demise is deeply regretted.

MARINE.

On Thursday night the wrecking steamer *Cougar* left Kingston for Montreal. The steamer was commissioned to help in towing up the divided steamer *Athabasca*, owned by the C. P. R. Company. This was the first trip made by the steamer since her accident down the St. Lawrence River at Clarendon. She made with difficulty as the fog was light the strand and sank. The steamer has an iron hull and she is owned by J. G. Ross of Quebec. It is believed that she is insured.

The Kirk session of Camden and Tamworth with their wives met in the manse at Conventile recently, and presented the Rev. J. Leitch of Newburgh with a beautiful silver chalice.

The drawing of James Rankin, in the second concession of North Marysburgh, was totally destroyed by fire on Saturday morning. The inmates of the house were asleep when the fire broke out and they had barely time to escape with only a portion of their clothing on. The loss is estimated at \$1,500, on which there is an insurance of \$600 in the Lancashire.

A few days ago \$5,000 worth of \$1 and \$2 notes were stolen from the Dominion Government. As payment of them has been stopped at the banks people will require to scratch very closely any \$1 and \$2 bills now paid them to see that they do not get worthless ones. The stolen bills are numbered as follows:—The \$1 bills from \$600,000 to \$606,000; the \$2 bills from \$146,000 to \$146,000 and from \$35,000 to \$16,000.

The C. P. R. Farms.

The C. P. R. experimental farms have all been located and placed under cultivation. Situated as follows:—Secretary, Bush Lake, Swift Current, Maple Creek, Sidewood, Dunnott Star, Tilley, and Gleichen, along the line of the C. P. R. Land Commissioners McTavish and Mr. E. A. Strachan, of the Land Bureau, have devoted their attention to obtaining the best varieties of grain and vegetables for the past fortnight being employed in this market very little has been done in the way of business, the only sales we hear of since our last report, embracing a few small items in one case, sold to a person who purchased only fresh fruit to mouth, at 25¢ for really choice new crops, and we expect now hops at 18¢/25¢ according to quality.—Montreal Gazette.

McGregor's Speedy Cure.

From the many remarkable cures wrought by using McGregor's Speedy Cure for Dyspepsia, Liver Complaints, &c., and the Liver, and from the immense sales of it without any advertising, we have concluded that the public are fully satisfied with the product it may be said, and that the consumer will have no perfect cure. BELLVILLE, TUESDAY, NOV. 6

A PRINTING CONTRACT SIGNED.

The Ontario Government have a printing contract scandal on hand, which is thus shown up by the *World*. "As the expiry of Mr. Webster's contract for public printing drew near, the Government called for tenders for the work for the ensuing four years. The tenders were B. Frank Wilson, R. Ross & Co., Grip Printers, and P. Robinson, Clarke & Co., and C. Blashfield Robinson. The tenders were in an ascending scale in the order named—Wilson being the lowest and Robinson the highest. Now in asking for tenders the inevitable practice is for Government to especially declare that it does not bind itself to accept the lowest or any tender; for if the lowest tender were always to be accepted contracts would fall often into the hands of adventurous speculators or irresponsible parties, resulting in great loss to the public service by the break down of tenders, and the reversion of their contracts. But as it is often difficult for the Government to ascertain the financial standing of tenders, to put up a safeguard against irresponsible adventurers, it nearly always requires that a deposit shall be made by the tender not alone as a guarantee of good faith, but as a protection against public losses. Now we regret to say that the Ontario Government is not alone fond of tricking with tenderers by breaking up contracts, who, when their private character may be advanced, but they have just neglected, as they usually neglect, the precaution against loss by insisting on tenders for contracts depositing such sums as would be a guarantee of good faith. This dangerous system has been gloriously exemplified in the case before us. A glance at the names of the tenders for the Ontario printing shows that some of the higher tenders are perfectly responsible persons, with reputations to make, but to lose. The Government, however, at first sight to the casual observer, seems to give the nod of approval to the men tendering, so that the tenders offered were in good and bad faith, and I awarded the contract to Mr. Wilson, the lowest tender. Now they know when they gave the contract to Wilson that he was not competent to fulfil it, if he took the contract he must break down, since he had not the mechanical equipment to do the work, and was not warranted by the margin of personal profit to purchase stock. But in the face of this knowledge, as we have said, it deliberately ignored the higher tenders, who were men of reputation and financial standing, and had offered \$38,000 a year to the hands of a straw man. This looks and is a blinder, and is something more than a crime, but this blinder is somewhat compensated by the elements of robbery and crookedness which afterwards became apparent. It now turns out literally, Wilson was from the first only a straw man, that he went there to represent a low tender for the Grip Company, that the Government was there as a two-faced broker, that he was to sell out to Grip; and with the laudable, honorable and honest intention of making a friend of the independent (*i.e.*) caricature paper they gave the tender to Wilson that he might hand it over to Grip. As it was laid out, how things happened. Wilson got the contract and sold it out to Grip; and Grip will shortly make no more publications of the *Mowat* paper, and the Mowat Government will doubtless after feel that they turned that bit of pat roast to good use. Meanwhile, however, Grip will remain an independent paper, and the Mowat Ministry a pure and honorable Government.

"It need only be said at the close of this article that the spectacle of one person putting in two tenders, one moderately high and another at the bottom of the scale, for a public work is not elevating or admirable, and at once appears that fair play to honest and responsible men, who state their arguments in full to calculation, stand or fall by the side of the question. Some such a course drives honorable and responsible men to do something, or it keeps them out of the field altogether. The gentlemen we have named who put in the higher figures were honorable and competent, and each put in one figure to stand or fall by it. If Grip put in two figures—one in its own name, the other that of Wilson—to do the same thing, that would be looked up by the magistrates to await the arrival of Dr. Bell, the coroner, from Lakeside, who arrived on the scene at about 11 this morning.

The Fifth at Tweed.

AT THE CELEBRATION.

The 5th of November was duly celebrated in Gloucester at L. O. L. No. 94 in the 11th con'tg. A dinner was served to the Masons, and the Government would have had it done even cheaper than at Wilson's restaurant, for his food would have been sumptuous, greater the difference between his tender and the one immediately above it. And further, in that case Justice could have been done, a house could have been built, and the money saved on contract jobbing—and this is a case of ardent constant jobbing—which would have been prevented. The Reformers have been the greatest sufferers for the honest award of contracts, and Alexander Mackenzie was their bright example in this respect. But we say it boldly that the ex-Premier of the Dominion would never have levied such penalties in the way this printing contract was submitted and would never have allowed such jobbing as that between Wilson and Corp.

"If Mr. Wilson or Mr. Moore can refute our contention in this respect, if they can offer a sufficient defence of the Government, we can say that such dealings as took place between them and the public service are not only disgraceful, but also a serious blow to the country. We are having to pay more for the whole thing is a job, and that they are contract mongers."

EDITORIAL BREVITIES.

The *Mail* pertinently asks why, if Mr. Ross is innocent, did he not allow the remaining five charges brought against him to be investigated? It will not do for the gentleman, after confessing to an illegal act and shrinking investigation of the same, to say that the whole thing is a job, and that they are contract mongers."

BELLEVILLE, TUESDAY, NOV. 6

City and Vicinity.

The Police Court had nothing to place
on record for today.

A TRAMP and a drunk kept company in
that last night.

A. ROBERTSON Esq., M. P., is expected
home this evening from Clifton Springs, N. Y.

The annual meeting of the Belleville
Branch Bible Society will be held in the
City Hall this evening.

The Directors of the Belleville Opera
House Company will meet in the Mechanic
Institute at eight o'clock.

The funeral of the late John K. Thompson,
which took place yesterday afternoon,
was very largely attended.

The ferry steamer *Mary Eddy* had to
desert making some of her trips to day, as
the gale did not allow her to go.

On Thanksgiving Day, 15th Inst.,
will be at one o'clock in the afternoon
for Mass eight. It is to be hoped the
parade will be a large one.

THE young people of the tabernacle or-
ganized a literary improvement society last
evening. They met in the basement of
the church every Friday night.

The first annual ball of the "True Blues"
of this city was held last night and was very
successful. The attendance was large, the
music excellent and the best of order pre-
valled.

TRACK LAYING ON THE OREGON & CALIFORNIA
RAILWAY is progressing rapidly. The rails
will be laid as far as Tossed to-morrow,
when further progress will be delayed for
a few days in the erection of the bridge
over the Mohr.

MISS CLIFFORD is in trouble. Yesterday
her boys engaged in an altercation with one
of her neighbor's boys and the trouble
ended by the father of the latter going to
Mrs. Ora's house—and she alleges, mal-
treated and abused her. She was looking
for justice this morning and will doubtless
get it.

PHOTOGRAPHIC CANADA is again being dis-
tributed by the agent, Mr. De LaHouche,
and gives the general satisfaction that all
previous editions are given up. The

ctuary," "Gullwing Harbor," "Stratford,"
"Godwin Park," "Salt Works of Lake
Huron," &c. &c.

MR. JOSEPH LAWTON, of Hungerford,
informed Mr. D. Gunn, the G. T. R. Agent
here, yesterday, that his wife was severely
injured in the recent accident near Forster
and that several of her ribs had been bro-
ken. Dr. Burdett, who attended to those
who were wounded in that accident, knows
nothing of her case.

PHOTOGRAPHIC—TORONTO, Nov. 6.—
Lakes, and upper St. Lawrence, strong
winds and moderate gales from south and
west, cloudy to rainy weather this morning,
followed by clearer and cooler weather.

It is to be inferred, from the facts that
two burglaries have occurred in Belleville for
several nights past, and that on Friday
night two burglaries, with the theft of
silverware, were made, that the gang who recently
robbed the Bank and its neighborhood
so successfully, have transferred them-
selves to Brooklyn.

Our readers must not forget the meeting
in the City Hall this evening to be addressed
by Dr. Hodgkin. Those who wish to
see something of the working of the Bible
Society, will be sure to see and ex-
amine complete copies of the Bible in the
different dialects, as published by the British
and Foreign Bible Society.

entrance into the residence of Mr. Job
Lingham, on Job St., at an early hour
this morning, but were frightened away by
the noise created by Mr. L's son, who
rushed out and beat them off. The members of the household were aroused
and the visitors hastily departed.

At the invitation of L. O. L. 17 Redfern,
the brethren of L. O. L. 109, Hillier,
the O. Y. B. of Trenton, and a delegation of
Preston Boys from this city, visited
them yesterday and participated in the
celebration of the Gunpowder Plot. Two
days ago, the gunpowder plot was com-
menced appropriate name. The brethren
gathered in the Methodist Church, where
suitable addresses were delivered by Wm.
Anderson, Esq., Grand Treasurer, B. A.,
and Rev. Mr. Hallsworth.

THE KINGSTON NEWS says—"The crook
now calling himself Roberts, but who
has many aliases, was one of the gang who
stole the \$1,000 at the Port Hope Station
and ran off to Hamilton. There were three
engaged in the burglary. The horses and
buggy were left at Hastings, where the
thieves took the 5 o'clock train for King-
ston, crossing over to Cape Vincent and
reaching Syracuse the next day, where a
letter enclosing ten dollars and giving in-
formation to Mr. O'Neill where he could
find his horse and buggy, was mailed."

ACCIDENTS.

Yesterdays afternoon as William Kerl,
who lives on the front of Thurlow, was
driving along Harcherup Avenue on a load
of hay, the wagon upset and Mr. Kerl was
thrown into the road. Two trees were
broken and the old gentleman's spine was
also injured.

A little girl, ten years of age, daughter
of George Caldwell, of Thurlow, while
playing at school yesterday, fell over a rail
and sustained a compound fracture of the
left elbow. Dr. Willson is attending the
above case.

BELLVILLE, WEDNESDAY, NOV. 7.

GRIT PREJUDICE.

The following, from the Ottawa Free Press, shows that Grit prejudice against Central Ontario is a natural aversion:

"More than a million dollars worth of ships have been driven away in British ports such as the Murray Bay Canal, Sudbury, Lake, Timmins, etc., and they are not allowed to enter our ports. All that is sent up against Mr. Mackenzie about the Fort Franco's book was that it was Murray Bay canal is more of a vessel than a ship or a steamer. All that is left is only a bribe for the consistency. The money that was taken is taken indirectly from the pockets of the men all over Ontario, and used in bribing localities."

The ignorance of the Queen's English exhibited by the writer of the above is equalled only by his want of facts in connection with the subject upon which he purposed to write. He does not even know the name of the Murray Canal or the Trent Valley Canal, so it is useless to waste space upon him. One thing only is certain, namely that the Free Press has taken its cue from Mr. Mackenzie, who declared that it would be madness to build the canals in question. The positions of hundreds of mariners and others engaged in the forwarding trade declared otherwise. Central Ontario is strongly Conservative, hence Mr. Mackenzie and the Free Press would be the last to claim that the section of the Province. Happily men are in power who are not so prejudiced and whose wise policy has provided the means for carrying out the long needed public works about referred to.

STATE ELECTIONS.

In the State elections which took place on the 6th the Republicans made heavy gains. In New York the Democrats probably elected most of the heads of their State ticket, whilst the Legislature will be Republican. Michigan, Connecticut, Pennsylvania, and Massachusetts have gone Republican, whilst Mississippi, Maryland, New Jersey and Virginia have gone Democratic, but the Legislature of New Jersey is probably Republican.

EDITORIAL BREVIETIES.

The Globe claims that there was an important difference between the Liberals and West Middlesex election cases. So there was, but the organ has failed to note it. It was this, that whereas in West Middlesex no corruption was shown on the side of the Conservative petitioners, in Lennox nearly as much bribery was shown on behalf of the Grit petitioners as on behalf of the Conservative respondent, and that, too, by the witnesses who were called by the Grits for the purpose of proving the corruption of their opponents.

The Canadian tariff is not perfect, says the Winnipeg Times, but under it much has been done for Canadian industry. The case of the C. P. R. is an interesting one. Last year it paid dutiable to the amount of \$800,000. This year, although they have used quite as much material, their contribution to the revenue will not exceed \$75,000. The explanation is that they have encouraged Canadian manufacturers of every kind, the tariff is a measure compelling them to do. Instead of importing their cars from Detroit, etc., they now get them from the Ontario car works, Montreal, Toronto, Hamilton, etc. These car works, moreover, have supplied an infinite variety of odds and ends used in the operation or construction of the road, which in the previous year had to be imported from the United States simply because they were not made in Canada. It is estimated that in this way the C. P. R. has been instrumental in promoting the manufacture of 100 articles other than previously manufactured in Canada or only manufactured on an exceedingly small scale. The policy of developing Canadian industry will be vigorously pursued by the company in the future, it is manifestly to their interest to encourage alike the manufacturers of the East and the settlement of the Northwest, as from those sources the freight by which the road will give must be drawn.

Sporting Notes.

'Phyllis' is settled in her winter quarters after a hard season's work. She has made the grand circuit, having trotted in front four races, in ten of which she took first place. Her best record was made in the great \$5,000 purse at Sault Ste. Marie, in which she won the mile in 2:17. The time is said to have been even faster, but the judges not wishing to bind her to the "first for all" class contented only placing her third the above the 17. Herd, trained and driven by her owner, Charles Wagner, is not only the fastest trotter ever owned in Canada, but the fleetest the ever trot her native turf. Her performances next year are naturally looked forward to, as it is expected she will considerably lower her present record.

McGregor's Speedy Cure.

From the many remedies which are wrought by using McGregor's Speedy Cure for Dyspepsia, Indigestion, Constipation and Affectation of the Stomach, the immense market, so far as to place is extensively on the market, so that there are now a number of dealers who have a large stock on hand. I have a small card to A. L. Green's Wholesale and Retail Drug Store and got a trial bottle free, or the regular price at 50 cents and one dollar.

Campbellford Correspondence.

The Bishop of Tunis was here yesterday. In the morning the congregation of Christ Church met at the Church, and the Litany was said by the Rev. E. H. Hindle, the Incumbent of the parish; after which a procession was formed to the Church Cemetery, the entrance of which a portion for consecration was presented to the Bishop. The Bishop and his Lordship accompanied the procession to the site of the Church of England, and set it aside for the burial of the dead.

In the evening there was a large congregation (between three and four hundred) to witness the rite of Confirmation; 29 candidates received the rite at the hands of the Bishop. His Lordship first addressed the congregation, and then his Lordship conducted the service according to the rites of the Church of England, and set it aside for the burial of the dead.

The works on the Trent Valley Canal are progressing favorably. The contractors for the locks at Fenelon Falls and Buckhorn are now proceeding with the masonry work for the lock walls, and have a large force of men employed. It is to be hoped the contractor for a section on the lower Trent will shortly receive the attention of the government.

his departure from Belleville, will wish
him prosperity in his new home.

TUESDAY will be Divine Services in St.
Thomas' Church to-morrow (Thanksgiving Day) at 10 a. m. as Rev. Dr. F.
Hogart will preach and at 7.30 p. m. A
celebration of Holy Communion at 8 a. m.
Offerings at the service will be devoted to
our local charities, administered by the
Ottawa Valley Association.

On Monday evening a young man who
lives in this city and who resides with his
parents in Sidney, waited here to witness
the services of the Salvation Army. As he
was driving along the road in the rear of
the first concession a dog ran out and began
barking at his horse. He got a stone and began
to throw it when the owner, a lady, seeing what he was about to do fired
off a revolver four times. The dog still
had his property in his new home.

letter regarding the treatment of convicts
in the State Prison.—"Mr. Iles has
never been a Warden of prison, and
therefore knows nothing of the situation
and responsibilities of such a position. He
certainly does not know Mr. Creighton
or he would not for a moment suspect that
he would be unmerciful and inconsiderate in
his treatment of the convicts. In the whole
of Ontario there are more humane,
gentle and kind and considerate no
Penitentiary head has been more success-
ful. Nowgate was never characterized by
such humanity as that which is exercised
in connection with the Dunlop's prin-
cipal plan of punishment."

ATTEMPTED ROBBERY.

Four days ago Joseph Fitzgerald, a former
resident of Coalton, left Fargo, Dakota,
for this city and arrived here on
Monday evening. He came to see his old
comrades, down town, he says, and being
desirous of stopping at the Hastings House,
called there but could not gain admittance as
the house had been closed for the night.
He next went to the Anglo-American
which he left after enjoying refreshments
with the bar, called for the bill and was told
that the party he had dined with had not
drawn up an invoice; his pocket book
in which there was \$200 in bills and a \$20
gold piece. The latter fell on the counter,
and on returning to him by one of the
party, Fitzgerald remarked: "That is the
kind of money we have in the west." A
suspicion was made that he should
attend the ball which was then going on
in the City Hall, and a ticket having
been offered to him, he accepted it
and proceeded with one of the
party to the yard. After remaining
there a short time he noticed a man coming
out of the building, and as he was
about to leave he saw a man in a
suit coat who looked like a
robber. This led him to believe that
he was about to be robbed.

In moving the adoption of the Report,
Rev. Mr. McLean said he knew the County
and the people in the north, who threw
him down, and endeavored to get possession
of his money. He succeeded in throwing
them and then ran away. He went to the
police station and made a complaint, and
the result was that the parties alluded to
in our Police Court report were arrested
yesterday. Fitzgerald claims that he can
recognize the men who assaulted him.

Mr. J. W. Dunnet seconded the motion,
which was put and carried.

Rev. Mr. McVeigh read the list of nomi-
nations, as follows:

PRESIDENT.—W. D. McKinnon.
VICE-PRESIDENT.—R. J. Waterson.
SECRETARY.—A. Waterson.
STORY.—T. R. Munro.
CHAIRMAN.—Rev'd M. M. McLean.
Treasurer.—David Mitchell, Mr. Stobo,
and D. Wahner.

AUDITOR.—Jas. Gordon and D. McLean.
STANDARD BEARER.—R. Waterson and J.
Waterson.

MAJESTAL.—Donald McLean.

PIPER.—Piper Major Smith.

MR. ANDREW'S SOCIETY.

At the annual meeting of the members
of the above Society, held at the W. T. A.
Hall last evening, the following were
elected office-bearers for the ensuing year:

PRESIDENT.—Wm. Sessions.

VICE-PRESIDENT.—R. J. Waterson.

SECRETARY.—A. Waterson.

STORY.—T. R. Munro.

CHAIRMAN.—Rev'd M. M. McLean.

Treasurer.—David Mitchell, Mr. Stobo,
and D. Wahner.

MR. ANDREW'S SOCIETY.

ATTEMPTED ROBBERY.

After hearing the testimony of the
plaintiff the case was delayed for eight
days for further testimony.

ASSAULT AND MURDER.

Louis Wees and Robert Mackie were
charged with having on the 7th inst. as-
saulted, beaten and attempted to rob Joseph
Fitzgerald.

Mr. U. Coleman, County Attorney, ap-
peared for the Crown and W. J. Diamond
for the accused, who pleaded not guilty.

Mr. Coleman asked that the prisoners be
remanded for a week, as he would be unable
to secure the necessary witnesses at
that time.

Mr. Diamond objected to such a long
remand and if it was granted he would sue
for hall.

The County Attorney said he would
oppose the application.

Mr. Diamond said the witnesses in this
case were in town and could be brought
forward in a few minutes.

Mr. Coleman said that as the offence
charged was a very serious one he should
allow every opportunity of obtaining
necessary evidence, and although the party
who had laid the complaint was here he
asked that all should do what they could
to aid the Society.

Mr. Thomas Ritchie said he seconded the
motion with pleasure. The objects and
principles of the Society were represented
more with great than with genuine enthusiasm.

The tendency of the age was to follow
what was conventional and orthodox. The individuality
of personal conviction should be im-
bued into every cause and a fearless ex-
pression of opinion given. We have not
yet arrived at a time to give the height,
breadth and depth of the scriptures. He
urged that the public should be shown how
to apply the principles of the Society.

Mr. Diamond said the right hon. Mr. Pitt
had not in his judgment done his duty in
not making a speech which would have
encouraged others to do the same.

Mr. Diamond said that as the offence

evidence sufficient to warrant the imprison-
ment of the accused had been presented; in
fact none had been offered.

BELLEVILLE, WEDNESDAY, NOV. 7.
THE ALGONA ELECTION—GRIT TACTICS.

The conduct of the Grit party in the Algona election has done much to move clearly party, if that were necessary, the true character of the men who were instrumental in obtaining a temporary triumph in that electoral district. We have already published enough to prove their votes were recklessness and want of character. It was well known that the main question was one of the men who had that conduct, and while it was known that Mr. Lyon, the Grit candidate, had voted for the incorporation of the Society in the Ontario Legislature, it was also known that he was a supporter of the Government whose Premier voted for the incorporation Bill and then advised His Honor the Governor to withhold his assent thereto; hence it was necessary to show to those who opposed the passing of the Bill that they had been duped. For Mr. Lyon, and therefore a circular, which we now reproduce, that it may not be forgotten, was circulated among a certain class of voters, as follows:

"To the Catholic Electors of Algoma:

[PRIVATE AND CONFIDENTIAL.]

"FELLOW CATHOLICS.—At the coming of life it is the chief desire of every Roman Catholic citizen of Algoma to bear in mind that the Mowat Government is the best friend of our beloved Church and of every man."

"They have appropriated more of the public money of this province to the charitable institutions of the Church than any other Church and to our Separate Schools than all of the other Governments of Upper Canada put together."

"They have persistently opposed the bill for Orange incorporation, and have proposed it to be referred to a committee, so that we have their promise that, as soon as the Government lasts, that distasteful measure shall never be placed on the statute books of this province."

"We have received satisfactory assurances that Mr. Lyon will support the Orange movement, and that he will do all in his power to have the same promulgated, so that the bill may be passed, and he did so solely for the purpose of keeping the large number of Orange men in Algoma."

"It is therefore, of the utmost importance, and it is the sacred duty of all good Catholics to support Mr. Lyon, who has always been a faithful friend and a steadfast champion of the Mowat Government."

"You are, therefore, required to use your votes in the election in Mr. Lyon's favor, as it is the desire of our beloved bishops and clergy that you should do so to the intent of your souls."

This plausibleness document was brought to light by the Mail on the 12th of October last, shortly after the Algoma election, and for seventeen days the Globe never referred to it and not then editorially, but by an anonymous scribbler who attributed the writing of the infamous circular to the Tories. Three days later the Globe venturously spoke, and in doing so said it was printed "in the office of a Tory paper at Owen Sound." To which charge the Owen Sound Tribune replied:

A BIG ADDITION TO THE FORCE AT RAY POINT.

An alteration between some young lads occurred last evening on Pinneback street near Dundas street. Some boys frequent a shanty near there, and last night they built a fire in it. Other lads as mischievous as them got upon the roof of the shanty and covered the chimney, thus smothering out the fire. Charles Merriam owned one of the tenements and the other was vacant. It appears Mrs. Merriam shortly after 11 o'clock, arose from bed for the purpose of closing up the shanty, and found one of the children who was ill. After closing up the little one she turned the lamp down, when it exploded and set fire to a bed near by. The flames spread and the building was soon gutted. The brigade was called out and the damage was put out with great difficulty.

SIXTY-FIVE FEET of the bridge across the river at Dundas street, was destroyed by fire. Charles Merriam, whose house was on the premises, suffered a loss of \$100.00. Dr. Lucy was arrested and held in \$300.00 bail.

FOR THE
KIDNEYS, LIVER
AND URINARY ORGANS.
THE BEST BLOOD PURIFIER.

There is only one way by which any disease can be cured, and that is by the medical authorities of the day declare that nearly every disease can be cured by the use of blood purifiers.

To restore them, therefore, is the only way to which we turn our attention.

WARNER'S SAFE CURE has achieved its great reputation. It acts directly upon the kidneys, liver, and other organs, and restores healthy condition to every disease and pain from the system. For all Kidney, Liver, & Urinary Troubles, it is the best, most effective medicine known to man. It dispels dangerous dangers to women; for Malaria, and physical troubles generally, this great medicine is unequalled.

It is the result of infinite imitation and concoction to say that it is just as good.

A Panic in the Barracks.

The Starting of the Servery Causes a General Rush for the Meals.

NOBODY INJURED.

The attendance at the Metropolitan Hall last night was as large as that of any meeting held on Sunday evening. The hall was crowded, all the available standing room was taken, and many were unable to obtain admission.

Soon after the services began, some boys who were standing on Campbell street, asserted that they had heard the wall of the old Open House crack. This was communicated to some who were standing on the upper stairs and they adjourned to the street with alacrity. In the vicinity of the wall a crowd had gathered expecting to see trouble, but it didn't. The apparent cause of the alarm was the dropping of water from the east side of the roof of the hall.

When the hall stone masons and the iron girders beat against the iron in the heavy beams became unloosed and a general fear became manifest among the audience. All was quiet for a few moments, but when the usual calm, and the noise created by the removal of the roof of the Robert- son Block, caused the alarm the servery to the stage below broke. This audience rushed for the stairway. The soldiers of the army who are distributed throughout the country to audience to preserve order, endeavored to prevent the thrush and appealed to the throng to keep their seats, but without avail. The stronger appeals were uttered, the greater or the rush became. Men and boys piled over one another on the stairway in their efforts to get out of the hall, and jostling and crowding was intermingled with appeals for haste. A woman screamed, boys yelled, the excitement was intense and could not be subdued. The heart of the crowd created general consternation among the portion of the audience and three ladies fainted.

Strange to relate, no one was injured.

LUTHER.

The 400th anniversary of the birth of Luther will be celebrated to-night in the City Hall, under the auspices of the Ministerial Association of this city. Addresses will be made by prominent clergymen. The union choir will furnish appropriate music and resident Germans will sing Luther's hymns.

THE BEAUTIFUL.

Our citizens were generally surprised to learn that (to their joy) that the beautiful snow had, unexpectedly, perched itself on this section. The full, glowing, wavy light and was distributed very generally by the gale. The usefulness of the snow showed it was again demonstrated and all who were desirous of complying with the provisions of the Snow By-law, cleared the walks in front of their premises—an example which many others should ha followed.

PERSONALS.

Hon. M. Bowell has gone to Ottawa. Dr. Bedford, of Picton, was in the city.

TIT Ottawa Free Press says—"Mr. and Mrs. Stanton and Miss Stanton, of Belleville, who have been visiting here for some time past, the guests of Mr. S. C. Chapman, returned home yesterday. Their idea of the evening before their departure was Stanton about a magnificent book, which he took with him to his Winterhome. It was by alighted in the great deer killed here this evening.

THE PARK QUESTION.

The Robertson Block on the west side of Front Street was struck by the lightning and while the ground hit all, which was its severity, that nearly all the timber in the roof was torn off, besides a portion of the red gable (6ft x 20ft) of the south western portion of the block, was blown from its position, and carried a distance of forty feet. A portion of the tin covering and a part of the iron railing that serves to adorn the front of the top of the structure were carried into the street below, the tin being rolled into an indescribable heap. The part of the roof that was displaced was carried to the iron railing on the front of the building, where it lodged, a part of it falling a distance of about fifteen feet into the street. The roof was torn off entirely of the block, and the tin was carried up in a pile. A portion of the covering about fifteen feet wide and the depth of a portion of a chimney was broken off and a part of the top of the rear wall suffered injury. The building is the property of Mr. and Mrs. E. J. Alford who put up to-day to make the necessary repairs.

SAFETY ACCIDENT.

"MECHANIC" sends us a lengthy communication on the Park question, for which we cannot spare space, owing to a great pressure of other matter. He thinks those who prefer to want a 50 acre park for public use, and who are fully aware that, as people of small income pay the bulk of the taxes and have the most to lose, should be given the right to express that our City Council will, upon the pretense of wanting larger grounds, deprive them of any place of public resort but the streets."

SAFETY ACCIDENT.

Mr. A. W. Ponton, D. L. S., son of Archibald Ponton, Esq., of this city. As nearly as has been learned, it appears that Mr. Ponton was injured some days since by the falling of a tree when in the discharge of his duties at Touchwood Hills, and that he was for a long time unconscious, in which condition he was brought to Qu'Appelle.

His mother and brother start westward, however morning to look after the sufferer at Wm. Haybell, where he has since been brought by Mr. Haybell, who has telegraphed the sad news home.

ACCIDENT.

Mr. Wm. Hamilton, the Merchant's son, while chasing the shotters last night during the prevalence of the storm, lost the tip of the little finger of the right hand. The piece of the finger was found this morning. It was necessary to cut off a further portion of the injured member, and the services of Dr. Eakin having been called into requisition he performed the operation.

SPORTING NOTES.

Miss Henry Corby, S. B. Birdsell and Wm. Hawke, who have been on a hunting expedition to Wolf Lake, returned home last night to listen to the stories of hunting and adventure that have occurred during their tour. They remained two weeks and during that time, although the weather militated against them, ran and went frequently unaccompanying, venturing into the woods alone. All unaccompanying their hunt was quite successful.

Hop Sales.

ANOTHER BURGLARY.

Mr. Nathan Jones' Residence Burglarized.

Through the Bravery of the Servants the Burglar Was Frustrated.

When one night had passed away, as was promised, the residents began to feel a fancied security, as private residences hereof late become miniature fortifications, but as yet there was no sound possible to rest in security, as everyone felt when the news spread on Sunday that the holy day a burglar had made a successful attack on the residence of Mr. Nathan Jones. It is reported that after a few moments of sleep the servant girl, who was standing at the foot of her bed, who, seeing that she was awake, quickly started for the stairs, down which he went as rapidly as possible, passing who was out of the French door which leads into the back veranda from the dining room, and when she reached the floor, she saw the burglar and seized him by the collar, shouting, "Stop! Stop!" The girl, upon shouting, not being aware of the ready movements which the burglar had prepared for his escape, shouted loudly and grasped an old iron gun, determined to stop him. The burglar, who had been armed with a knife, snatched the gun from the girl, and, with a heavy blow, sent it flying across the room. The girl, upon shouting, not being aware of the ready movements which the burglar had prepared for his escape, shouted loudly and grasped an old iron gun, determined to stop him. WEATHER PROBLEMS.—Toronto, Nov. 13.—Lakes, gales from the south west with milder cloudy weather, areas of snow or rain, followed by northwesterly gales and decidedly colder weather, with snow flurries.

Our New Heading.

OUR NEW DRESS has been completed to-day by a new heading of neat and tasteful design, and uniform in style with that of our weekly issue.

The Axe Factory.

We learn that Mr. T. P. Pearce has leased the Burrell Axe factory, for the manufacture of axes only. The factory is now in full operation and under the able management of Mr. Pearce the repartition of its work will be fully maintained.

Extinct Death.

Mr. Pearce's new dress has been completed to-day by a new heading of neat and tasteful design, and uniform in style with that of our weekly issue.

People ask when is the best time to take a blood purifier? We answer, the best time is when you are first taking it, and when it has a printed guarantee on it; if you wait until you are well, it will do no good.

The Council adjourned accordingly.

CITY COUNCIL.

On Tuesday, in the evening, the Mayor and his wife, a party of the former, and the chair a few minutes before 8 o'clock last night, the members responded slowly, but the following finally assembled: Ald. Diamond, Dickson, Taylor, Pope, Dunnett, Petro, Clarke, Frost, Tickell, Cooper, Smith and Hanley.

Mr. DALTON KIRK was the deacon of December, but will have but little brightness and that the faintest indication of a tail.

A Disappointing Comet.

It was recently announced, council, that its approximation to the Pons comet of 1862, in its elements and character, is supposed to be a re-appearance of the same.

It is expected to become visible to the naked eye about the middle of December, but will have but little brightness and that the faintest indication of a tail.

MATERIAL.

The stamping *Refugee* arrived yesterday morning from Oregon, light and cleared today with the mail to the East Mail for Oregon.

The *Philo Journal* has cleared for Oregon with barley.

The snow *Glacier* was driven south on Balaclava, during the absence of the balance of the party. There is also a fog of winter ahead.

Captain *Quebec*, the conductor of the schooner *Forest Queen*, died recently at Kingston after a brief illness.

The *Syrup* arrived this afternoon, light, from Oregon and will load with barley.

G. T. R. Donisthorpe.

In his speech at the half-yearly meeting of Grand Trunk shareholders, Sir Henry Tyler said: "As regards the doubling of the line, no doubt the time is approaching when we must take the question up in hand. It will indeed, cost us very little to double the line between Montreal and Toronto, but the cost of doing so will increase the delays and inconveniences to us considerably that we lose more money by keeping the line single than would pay the interest on the cost of doubling it."

Ten Years' Successful Ministry.

Last Sabbath evening the Rev. M. W. McLean closed the tenth year of his ministry in the city. On referring to the past history of the congregation during that period he spoke of the many changes that had taken place, the removals of deaths and other losses.

In speaking of the work among the people, he said that it was a matter for thanksgiving that the congregation had remained, the Sabbath school largely increased and the activities of the church quickened.

He attributed the growth of the church to the fact that the pastor had a strong personal influence.

The pastor, who is a man of great

THE CELEBRATION IN THE CITY HALL.

Capitol Attendance—Splendid Ad-
dress.

A very large audience gathered in the City Hall last night to witness the celebration of the birth of Martin Luther under the auspices of the Ministerial Association of this city. When the hour of opening the proceedings arrived, the hall was standing and a numerous audience had gathered to witness the services.

The Chairman said it was the desire of the Association to attend the public meeting in honor of the Luther anniversary then being held in the City Hall.

After a few minutes' conversation, a motion to adjourn until Friday night was put and carried.

The Council adjourned accordingly.

THE TENANTS OF DARK CLOUDS.

Statement as to the Kingston Case.

The *Whig* says, in reply to Mr. Ills' recent article, that the Mayor and his wife convicts were in military confinement for a few days, and we have no hesitation in saying that they deserved to be punished. Convicts who behave themselves do not suffer cruel and barbarous treatment, indeed cruelty and barbarity are not practiced at the Penitentiary and never have been.

"The term of every man can be materially shortened by his compliance with the rules of the institution, by observing the regulations, and by refraining from attempting to escape; these respects a man's usefulness and his usefulness to society.

The *Times* says: "The *Whig* has been detected in plots to shape; their last conspiracy, had it culminated, would have ended in a great mutiny, probably in tragic results. Two of the leaders in the desperate assault have been checked repeatedly in their evil scheming, and they have no dread of the solitary cells. Outside of these indeed, they are dangerous, mischievous characters, men upon whom kindness is wasted, men who are both incorrigible and rock-hard."

BELLEVILLE, WEDNESDAY, NOV. 14.

THE MURRAY AND TREAT VALLEY CANALS.

The Ottawa Free Press bears testimony to the force of our exposure of its ignorance and partizanship in denouncing the Murray and Treat Valley Canals, by launching a characteristic tirade of abuse at the INTELLIGENCER. We shall not enter into a contest of vilification with a journal that is known as the champion of the cause of the people in the Ottawa Valley, and in particular state that if ignorantly partisan, the INTELLIGENCER has never, as all events would run, cost the Free Press so much trouble on a memorable occasion when money was to be made by the operation.

It is of very little use to discuss the subject in question with an opponent who is so stupid as not even to know the names of the important public works which he ignorantly presumes to style "fraudulent," although they were mentioned in article which argued in their favor.

It is, however, of interest to state that hundreds of miners and other persons engaged in the forwarding trade, as well as a large number of residents of the localities most directly interested, petitioned for the construction of the works in question. Had the editor of the Free Press made inquiry, as it was his duty to do before stating annulling for denial, at the Railways and Canals Department, he could have learned that our statement was perfectly accurate, but, being untruthful himself, he evidently cannot conceive that an opponent could be more truthful than himself. We now refer him to the editor of the Free Press, who, I assure him, a man under such a "for-warder" in Canada would disgrace him, "self by signing such a petition for the "Murray Bay (I) Canal," and dare him to publish the result of his inquiry.

The Free Press also says:

But would it not be to the point for the editor to explain, for the benefit of the public, that he has no right to be considered when completed, in order to renumerate the damage done to the Murray Canal? The reason for this statement is because the engineer in charge of the works will not endeavor, by any means, to make up for the loss of the Murray Canal, as far as the public is concerned.

It would be interesting to know whose money Barry used to bet with on that occasion. His mouth was closed as to the general charge, as Ross had previously thrown up the sponge, in order to prevent any more disclosures than were necessary to upset the election, and consequently he could only be examined on the personal charges, as to which he was the chief witness. Hence the tracks of the Grits were covered up as well as possible, but there is plenty of ground for the belief that Mr. Ross election was only secured by widespread corruption.

The Rev. Dr. Burwash has written to the Mail a strongly disapproving of University Consolidation. He concludes as follows:

"... shall not at present further trespass on your valuable paper, but should occasion require it, may at some future time, show that this whole argument is rendered still stronger by the past history of the movement, and that the proposed liberal university will not overshadow, by any means, the existing institutions of the country. Now, however, I trust that you will publish the result of the present agi-

sufficient for the requirements of the public service, and that, too, without taxing the people as much per head as did the Cartwright railway?

Says the Toronto *World*:— "These are wheels within wheels. C. C. Ross, the newly appointed provincial treasurer, has been received by the old constituency by acclamation. A little bird whispers that there was a reason for this, and that it is to be found in the circumstances in which the gallant colonel's strongest opponent, and the gentle man who ran against him at the last election, now sits in the Senate. He not only would, but kept others out of the field. Love, they say, laughs at kickables. Apparently also at politicians."

The editor of the Ottawa Free Press is so professed a scholar that he chides his constituents for the occasional use of what is pleased to term "bad English." The following, from the Free Press of the 12th inst., will give the reader a fair idea of what the eruditely critic in question considers "good English":

"Noboddy would give bad to anything appearing in the columns of the INTELLIGENCER were not the organ of a Minister of the Crown. This fact gives me a great deal of pleasure, as it causes me to feel that my efforts are not in vain, and important it otherwise would not be to my advantage."

The Italian says ours: "The rest of the precious production is the Free Press scholar's. Chaste and beautiful English, is it not?"

The Grit papers are making a great ado about the bating by John Barry in the West Middlesex Provincial election, of some money of his own and some of the Conservative candidate's. This same Barry is a Grit practitioner in Grit districts and in the same constituency eight months before he supported Mr. G. W. Ross, the party candidate. He will be seen in the streets of Guelph to-morrow, and paid the railway ticket to his brother who came from Michigan to vote for Ross, on an understanding with Ross that he was to be repaid the amount. On that occasion Barry swore:

"I was beaten on the results of the election yesterday, and I was anxious to see Ross elected."

It would be interesting to know whose money Barry used to bet with on that occasion. His mouth was closed as to the general charge, as Ross had previously thrown up the sponge, in order to prevent any more disclosures than were necessary to upset the election, and consequently he could only be examined on the personal charges, as to which he was the chief witness. Hence the tracks of the Grits were covered up as well as possible, but there is plenty of ground for the belief that Mr. Ross election was only secured by widespread corruption.

Now, however, I trust that you will publish the result of the present agi-

tion. It would be a very great disservice to the cause to anticipate the tag which went to the rest of the schism *Eddy Jones*, on Racine Road, returned last night unable to reach her, owing to the impassability of the snow. She is reported to be dead.

How Mr. Ponton was injured.

THE OTTAWA CHIEF furnishes the following brief particulars of the manner in which Mr. A. W. Ponton was injured:—"Mr. Ponton, D. L. S., in charge of a Government survey near Regina, and with a serious case of appendicitis, was compelled to return home. He was on his way to the station when he was pained so much that he sought help at the chief. He recognized Mackie as one who had been kind to him. He had an impression that Mackie was the other party because he was friendly towards him. He had no doubt about Wens being one of his assailants. The parties who assaulted him used no weapons.

During the interview between Fitzgerald and Wens, he was shot while on his way to the station. He did not tell any one that all the money he had was in his pocket.

He did not tell Wilson that was all the money he had. The parties who assaulted him did not succeed in getting their hands into his pocket.

The memory of the witness was not clear on a number of points and his examination was quite protracted. After the close of his testimony the Court adjourned until three o'clock this afternoon.

Dunham and Faraday Correspondence.

The witness has gone to Osgoode with Green. This vessel was formerly the *s.s. Mary Evans* and was owned by Mr. Frank Wallbridge, of this city. She was rebuilt and made a schooner. The Royal School of Gunners has granted a first class, short course infantry certificate to Captain Thomas Cameron Lester, of 1st Battalion, second-class certificates have been obtained by Paymaster-Sergeant H. Cartier, 49th Battalion and Quartermaster-Sergeant W. Watts, 49th Battalion.

MARINE.

The *Sparta* has gone to Osgoode with Green. This vessel was formerly the *s.s. Mary Evans* and was owned by Mr. Frank Wallbridge, of this city. She was rebuilt and made a schooner.

The *W. J. Wilton* has gone to Osgoode and is bound for the *Marine* factory dock.

The *Aspin* is loading barley at Trenton.

The *Trent* went up to Trenton this morning to bring down the low load of the season.

On the return of the *Alexander* here on Saturday next, she will run to Picton, where she will be laid up.

The steamer *Hercy* will make three more trips to Belleville, then she will run for two weeks to Picton, then lay up.

The E. R. C. Proctor is expected here to load grain.

PERSONALS.

Mr. William Johnson, Inspector of Weights and Measures, is suffering from the effects of a severe cold and is confined to his house.

Thomas Hodges is still at Clinton Springs.

Mr. R. H. Pope, son of the Hon. J. H. Pope, Minister of Agriculture, and wife, arrived here yesterday from Ottawa, having paid a visit to their relatives, Alderman and Mrs. W. P. Pope, of this city. Mr. Pope is returning from Southern Texas, where he owns an extensive cattle ranch.

From Duthie, Keith & Co., we learn that Mr. Ponton, of this city, dated Q.C. Appelle, Nov. 13th, reads as follows: "W. A. Alcock, Esq., 100 King Street, Toronto, Nov. 13th, 1883.—Sir, I am sorry to inform you that Mr. W. A. Alcock, of the 9th comp. Faraday, who was out during the last cold snap, Faraday, who was out during the last cold snap, hunting deer in a bark canoe on Long Lake, the canoe capsized, and having on a heavy coat, was unable to get out, and was compelled to swim to shore before he could walk home.

The survivors, I am glad to say, have found an excellent route for the B. and N. R.R. Railway. The track will be on the east side of the Hastings road, and will be built through the town of Sackville, and then continue northward through the Town of Limerick; it will enter Dunham about four miles east of the Hastings road. It then keeps northward through the McIver and East teal timber lands. Mr. Kelly's creek, about half a mile east of Albany, has been followed, and it is about a mile to a bog on which he clambered and then got into the canoe. By this time he was completely chilled, but the shoe being at no great distance he made more effort and managed to get out, and with his hands, where he arrived so exhausted that he was some time before he could walk home.

In view of the fact that Mr. Ponton and his party were lost in the woods, and were unable to get out, and that they were in great danger, I am sending a telegram to the *Marine* to have them come to the rescue.

The steamer *Hercy* will make three more trips to Belleville, then she will run for two weeks to Picton, then lay up.

The E. R. C. Proctor is expected here to load grain.

PHOTOGRAPHIC NOTES.

An English cricket team, composed of gentlemen, will visit Canada in August next.

The Toronto curlers played their first game of the season on Monday night. The ice was in good condition.

It has been definitely decided that an Australian cricket eleven will visit England next year.

of promise, of prosperity, and of gratifying results.

The *Mail* very cleverly continues in another article which she has inserted in another column, the following comments of the Globe on electoral corruption. The same contrast could be made in the Lemox case, in which Sir John A. Macdonald was a non-resident and only in the constituency for a few days — was held by the organ as necessarily a candidate.

The same Barry interested himself in W. Ross' election, having confessed to buying votes; but the *Advertiser* refuses to publish the truth, although Barry wrote to me to assure me that as white as snow Hyperion thy name is Gritian!

The same Barry interested himself in W. Ross' election, having confessed to buying votes; but the *Advertiser* refuses to publish the truth, although Barry wrote to me to assure me that as white as snow Hyperion thy name is Gritian!

The Hamilton Tribune (Independent Grit) remarks, *opposed to the tender of the Ontario Government printing*: "The real facts, however, are a genuine scandal, and of a piece with the robbery which the Liberal party properly made a handle of at Ottawa."

The *Toronto Telegram* says: "There is no use of the Conservative party in Canada, which has just been raised, enabling the strength of parties in the Dominion to be determined, says the *Montreal Gazette*. In the Province of Ontario there were 5 Ministerial and 37 Opposition candidates elected, of whom the former obtained an aggregate majority of 12,198 votes; and the latter an aggregate majority of 9,247 votes, leaving a net Conservative majority of 2,951 votes. In this calculation we take account of the Conservative majority in Frontenac, where Hon. Mr. Kirkpatrick was elected by acclamation, in Lunenburg, where Mr. Haggart was elected by acclamation, and in South Simcoe, where two Conservative candidates contested the county, and where the ordinary Conservative majority reaches a thousand. The representation of parties in the House, taking these considerations into account, is very closely in accordance with the popular vote, the Conservative majority in Parliament being slightly less than 50 per cent., and the majority of the party in the Province at least 50 per cent."

Frontenac, Lunenburg, Simcoe. In Quebec the representation is divided, into 53 Conservatives and 12 Liberals, of whom the former polled an aggregate majority, in contested elections, of 13,103 votes, and the latter a majority of 2,055 votes, or a net Conservative majority of 11,048 votes. There were in the province 17 elections by acclamation, of which all but one, Belleville, were obtained by Conservatives, so that the majority of the popular vote for that party was something enormous. In New Scotland fifteen Conservatives and six Liberals were returned, the former, taking the highest majority, 11,226 votes, and the latter a majority of 1,106, making a Conservative majority of 2,122 votes, not counting Cumberland, where Sir Charles Tupper was returned by acclamation. In New Brunswick, Messrs. Costigan and Mitchell, Ministerials, were elected by acclamation, and in King's County the contest rested between two Conservatives. Nine Conservatives and seven Liberals were returned, the former securing a majority of 2,840, and the latter a majority of 2,213. Prince Edward Island, taking the double vote in each constituency, stood 15,279 for the former and 15,187 for the Conservatives, and in the Home, the representation is equally divided between the two parties, which, as in all the other provinces, is in accordance with the popular vote. British Columbia returned six Conservatives, of whom two obtained election by acclamation, and gave a popular majority in the contested districts of 906 for Government. Manitoba alone of the Provinces, was carried by the Conservative who elected three Reformers, a majority of 3,914, and a total constituency, Mr. Royal, a Conservative, being returned by acclamation. A summary of these figures is as follows:

| CONSERVATIVE. | | LIBERAL. | |
|---------------------------|-----------|--------------------|-----------|
| Number of Members. | Majority. | Number of Members. | Majority. |
| Ontario..... | 15 | 15 | 2,951 |
| Quebec..... | 53 | 12 | 2,055 |
| New Scotia..... | 15 | 12 | 1,106 |
| Prince Edward Island..... | 15 | 12 | 2,122 |
| F. E. Island..... | 3 | 2 | 82 |
| British Columbia..... | 6 | 0 | 0 |
| Manitoba..... | 15 | 12 | 2,840 |
| Total..... | 123,261 | 68 | 12,854 |

The majority rule does not fairly represent the strength of the Conservative party in the Dominion, as out of twenty-five elections by acclamation, the Conservatives obtained twenty-four. The Parliamentary majority of two to one is very nearly in accordance with the popular vote, whether it be taken separately by Province, or in the aggregate for the whole Dominion.

EDITORIAL BREVITIES.

The *Hamilton Tribune* has been looking practically, by interviews with the business men and manufacturers of the "ambitious city," into the Grit cry of "hard times, with harder to come, and thus satisfactorily sum up the result of its investigation."

Numerous firms and industries are riding on the turbulent waves of prosperity with a corps of workmen employed night and day. Time is expensive, and the cost of living is high. Firms are not able to execute all the orders that come to them, and are wishing for more capital to expand their operations. The demand for reproduction will now be a short period. A few months will be required to increase resources. There is not a doubt in the minds of the business men that the provocations will tide over the threatened difficulties. The commercial situation and possibly avert the difficulties by a judicious expenditure of money plentiful and steady. The prices of grain are high, and the nominal rates where it has not already been fixed are the same as last year. The grain in the market is fair and few armament companies will be able to compete with another, and calculating upon the tendency of the market, the grain companies are either to recognize the worst tide of affairs, or believe the business outlook for Ontario to be full

of promise, of prosperity, and of gratifying results.

Daily Intelligencer.

BELLEVILLE, FRIDAY, NOV. 16.

THE U. E. LOYALISTS' CENTEN-

NAL.

A friend in Toronto has forwarded to the Intelligencer a copy of the following circular, with the express desire that it be noticed favorably editorially.

The year 1884 will be the One Hundredth Anniversary of the birth of Sir John A. Macdonald, and a Preliminary Meeting was held in the City Hall, Toronto, on Saturday evening, October 21, when, after what steps should be taken to commemorate this occasion, as full of interest, as a Loyalty Celebration, was decided upon by the U. E. Loyalists.

The speakers at the meeting were Dr. Canfield, Mr. C. G. Read, Mr. W. C. Foster, Mr. King, D. B. Read, Mr. G. C. Moore, Mr. W. H. Williams, Dr. Canfield was elected Chairman, present, and Mr. C. F. Egerton Ryerson, Mr. Allard, Mr. Mowat, Mr. George Moore, and Mr. George Williams, were appointed to the form of the Celebration, it was decided to adjourn until the 21st of November, at the same place. All interested are cordially invited to attend, and who can do so, are asked to bring their children. Dr. Dr. Canfield or Mr. C. F. Egerton Ryerson, and their colleagues will be glad to receive the same.

It is proposed to hold the celebration during the month of November, as the time of the anniversary, next June, when it is hoped that several U. E. Loyalists will be all parts of the Province to be represented.

We regret that the closing sentence of the circular presents compliance with the wish of our highly esteemed correspondent. Our idea is that the celebration of so important an event should not be confined to Toronto, but that, in each of the leading places of Ontario—in the Bay of Quinte district in particular, which was first settled by the Loyalists, and in the various districts of the Province—should be held. There are, in the Bay district, a sufficient number of the descendants of the U. E. Loyalists to get up demonstrations in each of the cities, towns and villages indicated; but if there are those amongst them who hold a contrary opinion, or if a grand union demonstration be deemed preferable, then let there be a meeting called of all Loyal Canadians (by birth or adoption) at which it may be determined where such a demonstration may be held.

For these reasons we cannot recommend any resident of this district to attend a meeting which is to be held for the purpose of organizing a demonstration to be held in Toronto, but at the same time we venture to express the hope that a meeting of the kind which is to be held in Toronto will shortly be called, and we would suggest that it be held in Belleville, Napanee, Trenton or Kingston. If this be not done at an early day, then let the residents of the Belleville district be asked to organize a local celebration of the event.

THE WATER SUPPLY.

We note with pleasure that our local contemporary is discussing, in an intelligent manner, the question of the city's water supply, and that the Municipal Scientific Society have also taken up the subject. This is a matter which the Intelligencer has debated from time to time, for years past. We have shown the insufficiency of the supply, its bad quality, and the filth which is inseparable from the use of public wells; but unfortunately to little purpose. Prof. Bell, who has made the subject one of his specialties, has written, lectured, and in every possible way urged an improvement in the supply. Our contemporary now quotes approvingly what he learned by the Professor and published by the Council in 1876, and we can but hope that the facts therein stated and arguments adduced will have the desired effect.

EDITORIAL BREVITIES.

The Toronto Telegram remarks:

"A noteworthy inference may be drawn from the discovery of a human skull in West York, measuring forty inches around the forehead. A man with such a skull could not have four feet long, and what object is a human skull with such a large head?"

To be sure, if the skull had been found in this time was the same size as himself it would be a remarkable specimen.

He had probably lost a lot of money to load up the interior of a boat, and had been compelled to do some way of getting himself up like a one-legged dog."

The only use which we can conceive of for men of fourteen feet in height would be to wear the seven yard shirts of which Mr. Blake spoke when denouncing against the N. P., as illustrating the evils of that measure.

The Globe sticks up for Bradlaugh, and blames him for alleged lack of religious convictions. Consistent as usual.

The Toronto World wants to know why the fine trade directory not written up to date upon the depression of the cotton trade in England.

The Ottawa Free Press continues to deplore, despite repeated statements from the contrary, that the Intelligencer is the special organ of the Conservative party. It would be pleasant and an honor to receive editorial contributions from a gentleman noble and so thoroughly experienced as Mr. Bowell; but as he is a very energetic and busy man, with the affairs of the most difficult of the Departments to administer, we cannot expect such favors from him.

The Intelligencer is the organ of every other member of the Government, namely that, heartily approving of their policy, we second them with a willing support, and, to the best of our ability, defend them from the partisan attacks which are constantly made upon them by unscrupulous, untruthful and unpatriotic opponents, such as the Free Press.

Mr. Allison, the Reform candidate in Lemont, left the felons out of the bag, says the Mail, when addressing the convention which nominated him. He said that the speaker for the Presidency, but was for the Speakership, and that he had no objection to the former, but as he is a very energetic and busy man, with the affairs of the most difficult of the Departments to administer, we cannot expect such favors from him.

Gratifying News.

A. PONTON, Esq., father of Mr. A. W. Ponton, Esq., received very gratifying news this morning as to the condition of his son, whose injury by a falling tree at the Touchwood Hills has previously been noted.

A letter from Mr. John J. Hailett, who is one of Mr. Ponton's party, avers that the boy, who was caused by a fall, had been brought down glucose from another tree, and that the condition of the patient was such as to forward his speedy recovery. It is probable that his mother and his brother are in charge of the injured man, as they expected to arrive in Winnipeg this morning.

Singers and public speakers are always best off by a "Downy" Hair, as it removes the dust and increases the power of the voice. Take small doses often. Price, 25c., 50c. and \$1.00.

POLICE COURT.

Before His Honor the Mayor and Thomas Wilks, Esq., J. P. J.

THURSDAY, Nov. 16, 1883.

ATTEMPTED ROBBERY.

The hearing of the charge against Lucas Wiese was continued yesterday afternoon, when the County Attorney objected to the evidence of the Magistrate, had not power to try the case. (It will be remembered that three witnesses for the defence had been examined on Wednesday.) Mr. Diamond for the accused contended that the presiding Magistrate had as much power as the Police Magistrate, a view which agreed in after a long argument. No further evidence was heard and Wiese was discharged.

The Opera House.

Mr. Walter Alford, the contractor for the erection of the Opera House, is making excellent progress with his work. The stars having been placed in position and the grand organ installed, the interior is nearly completed. A large number of carpenters are at work in different parts of the structure and the echo of the hammer resounds throughout.

The task of the plasterers is nearly over and it is thought they will leave the building soon.

Mr. Fred Richardson, the contractor for the scene printer, has been steadily engaged at his work, and it is thought he will be finished forty days from commencing work.

BELLEVILLE, SATURDAY, NOV. 17.

DOWNTOWN TAX ACTION.

Our local contemporary charge us with making a weakish statement in ascertaining that the increased revenue raised under the N. P. has not enhanced the taxation per head of the population, and in support of its charge quotes figures showing that the public expenditure for the fiscal year ending on the 30th of June, last, was about \$14,000,000 which is much the expenditure of 1877-78.

To this we reply that our statement was correct, and that the average rate of taxation between 1874 and 1878, during which the Mackenzie Government was in power, was \$4.88. Last year, although the Government expended very large sums in promoting immigration, in erecting public buildings, such as that in this city, and in opening up the North-West for settlement, the average rate of taxation was but \$4.38 per head of the population. Of the increased revenue, more than \$2,000,000 was derived from the excise, and it did not involve taxation, such as the post office and railways, and the balance has arisen from the growth of trade and the augmentation of population, which latter cause has kept the average of taxation down to the former figure.

As to the relative economy practised by the two Governments, we quote the following official figures as furnished by the Montreal Gazette. No Grit paper has presumed to attempt to controvert them:

| | 1877. | 1882. |
|--------------------|---------------|---------------|
| Public Works | \$ 1,863,140 | \$ 2,711,334 |
| Customs | 12,900,000 | 21,845,700 |
| Excise | 3,587,000 | 3,897,000 |
| Post Office | 1,172,108 | 1,067,000 |
| Total | \$ 21,300,880 | \$ 31,555,431 |
| EXTRACTION. | | |
| | 1877. | 1882. |
| Public works | \$ 2,690,973 | \$ 2,603,402 |
| Customs | 1,011,000 | 1,000,000 |
| Excise | 349,662 | 350,000 |
| Total | \$ 3,051,635 | \$ 3,953,402 |
| Total. | | |
| | \$ 5,396,177 | \$ 5,908,865 |

During this period the revenue increased \$10,438,561, or 49% per cent., while the cost of collection increased \$482,388, or a fraction under 9 per cent. How was it under the Liberal Government? Here are the figures:

| | 1877. | 1878. |
|--------------------|---------------|---------------|
| Public Works | \$ 1,320,185 | \$ 1,633,119 |
| Customs | 14,815,000 | 15,300,000 |
| Excise | 3,587,000 | 3,897,000 |
| Post Office | 1,178,073 | 1,172,108 |
| Total | \$ 20,300,880 | \$ 20,300,880 |
| EXTRACTION. | | |
| | 1877. | 1878. |
| Public Works | \$ 2,690,973 | \$ 2,603,402 |
| Customs | 1,011,000 | 1,000,000 |
| Excise | 349,662 | 350,000 |
| Total | \$ 3,051,635 | \$ 3,953,402 |
| Total. | | |
| | \$ 5,426,183 | \$ 5,908,865 |

This is to say, while the revenue decreased \$11,241,094 or 4% per cent., the cost of collection increased \$753,953, or 164 per cent. The cost of administering public works, such as the Intercolonial and Prince Edward Island railways, increased \$291,300, and the revenue therefrom augmented \$353,229, or a gain of \$61,954, while, since 1878 the total revenue has increased only \$21,300 against a decrease in revenue of \$847,985, or a net gain of \$860,402, is quite true that the expenditure on the construction of public works has largely expanded since the advent to power of the present Government, the buoyant state of the revenues permitting necessary improvements to be made in the water and land highways, but that is an increase which the Liberal party has not ventured to characterize as ill-advised, for in fact it is largely responsible, since the proportion of Minister to dominate many items of proposed expenditures on roads, rivers, and public buildings was substantially increased at the last session of Parliament.

THE PRICE OF WOOL.

A woolen manufacturer writes to the *Intelligencer* that one of the main causes of the decline in the price of long wool is the importation of shoddy goods, which take the place of goods manufactured from long wool, such as mohair grown in Canada. The remedy which he suggests follows:

The only way by which farmers can secure reasonable price for their coarse wool is to sell it to the manufacturers, who will then manufacture and sale shoddy clothes, the law to be punished in all cases by fine and imprisonment. The manufacturer who has shoddy or imported shall have the same assessed, and no manufacturer who makes good price for his shoddy clothes, the law to be applied to him.

For a long time, it has been suggested to the manufacturers that any article which bears the difference by examination.

Let us hope that some day the petition

of the manufacturers to the Legislature to prohibit the importation of shoddy clothes, to be passed.

It is now quite well understood to be an absolute practical scheme to stamp out worthless imitations of the "Mystic Wool" for the genuine article. In former years the manufacturers of shoddy clothes, such as Messrs. Fawcett & Son were compelled to pay heavy fines to stop a plot to it. Though they were always safe precautions, it is now quite well understood that any article which bears the difference by examination.

For a long time, it has been suggested to

HIGHLIGHTS.

This is the Bright Day.
Weather doors are in demand.Two arrests were made last night.
The standard time goes into effect tomorrow at 8 p.m.

The trains last night, and this morning were behind time.

A FURIOUS gale blew during the greater part of the night.

The youth of the city now abhors them, and is in no condition to go to bed.

(Or 40 engines stationed at the G. T. R., have 20 more).

A terrible gale will come into effect on the G. T. R. to-morrow.

Moos, Oars, the weather prophet, forecasted us with a call last evening.

The ice from the seashore to the east side of the river can now be crossed with safety.

THE ANNUAL ASSEMBLY OF INDEPENDENT HOME COMPANY NO. 2 WILL TAKE PLACE ON DECEMBER 27TH.

THE NOMINATION FOR LOMAX WILL TAKE PLACE AT NAPANEE ON MONDAY NEXT. A NUMBER FROM THIS CITY WILL VOTE.

THE MARKET WAS WELL ATTENDED THIS MORNING. POULTRY WAS FRESH AND REASONABLE IN PRICE; WOOD WAS SCARCE AND EXPENSIVE.

ON THE FIRST DAY, AND IN THE EVENING OF "THE MOST" THE SHOW, THE BEAUTIFUL FAIR, HAS BEEN TURNED LOOSE AGAIN.

DUELL yesterday and to-day, Mr. D. Gurn, G. T. R. station agent here, paid out over \$20,000 to the men who brought inadequate services in this city.

BUNDLES OF furs are in the city, they could have replenished their stock, but had known that a hardware store door had been left open last night.

THE CURING RUM IS TO BE PUT IN READINESS FOR SALE WITH AS LITTLE DELAY AS POSSIBLE. MR. JAMES GORDON HAS BEEN ENGAGED TO LOOK AFTER THE WORK.

THE LECTURE BY REV. MR. SCHUTTER IN THE MISSION ROOM LAST EVENING WAS FAIRLY SUCCESSFUL. THE DISCUSSION WAS INTERESTING AND CLOUTED WITH QUESTIONS.

THE NEW SALVATION ARMY BARRACKS AT KINGSTON WILL BE DEDICATED SOONER OR LATER. IT IS PROBABLE THAT SOME OF THE MEMBERS OF THE ARMY IN THIS CITY WILL ATTEND.

THE CIVIL SERVICE EXAMINATIONS CLOSED YESTERDAY AFTERNOON. THE EXAMINATION EXAMINATIONS WILL BEGIN ON MONDAY. MR. WALTER GREENE WILL BE THE EXAMINER.

THESE ARE AT PRESENT 99 COURSES OF THE CANADIAN ORDER OF FORESTERS IN THE PROVINCE OF ONTARIO, SIX COURSES IN THE PROVINCE OF QUEBEC, AND TWO IN THE PROVINCE OF MANITOBA.

IS THE POLICE COURT TODAY, OWEN COMMUNES AND CONVENTION. THEY WERE INTRODUCED TO THE MAGISTRATE. THEY WERE CHARGED WITH BEING DRUNK, AND AS HIS WISDOM DID NOT HAVE TIME TO HEAR THEIR EXPLANATIONS, HE DISMISSED THEM.

A TELEGRAM FROM MR. E. D. Ponton received here today by his father, states that his mother and himself met Mr. A. G. Ponton yesterday in Winnipeg and that he was looking well. They will leave for home Monday.

A service funeral was held yesterday in the basement of the Holloway Street Church. The readings and recitations were excellent, and the music deservedly the choicest of the church and a juvenile choir was present.

The Rev. Dr. Walton, of Toronto Baptist College, will preach the anniversary sermon in the Baptist Church tomorrow, at 11 a.m. and 7 p.m. We understand that the above gentleman has been a successful pastor, is a ripe scholar and a good preacher.

There is about the usual amount of the Baptist Church on Monday evenings except a few of ordinary character. An excellent programme has been provided, and we have no doubt the Committee of arrangements will provide for the comfort of all.

Some persons still aid, staying a self-registering minimum thermometer on Thursday nights, and the worthy Almoner, who said he will probably sit on him and the thermometer, respectively, will then have right to regard that he went into the thermometer.

Mr. Wm. John Taylor, son of Ald. Taylor, has passed his examination as Solicitor and Barrister, without an oral. This augurs well for his future success, and we are confident that after passing such a highly successful examination he will soon be had in view in the front rank of his profession.

The public-spirited Cedar Street was pummeled this morning for the purpose of recovering the body of a man who was said to have found a watery grave in it several months ago. Those who pass the found in this receptacle occasionally after rain always will probably object to being deprived of their cheap supply of chicken soup.

UNDER THE IMPRESSION that there would not be a meeting of the City Council last night, Ald. Diamond showed his hand. Ald. Diamond did not take part in last night's proceedings, having been engaged with a number of gentlemen discussing the question of railway extension.

RAILWAY ACCIDENT.

John Arthur, 24 years old, son of William Arthur who resides on the Caufield Road, met with a painful accident about eleven o'clock last night in the Midland Railway yard. He was employed as a brakeman, and last night was on a car behind the engine when a running switch was made. It is reported that he lost balance after he had uncoupled them from the train and fell upon the track. He pulled himself up, and a comminuted fracture of the right leg and the left is also bruised and otherwise injured but is not at all serious, and it appears as if it had received a painful stroke.

We hope that with a few days' careful nursing the Hon. gentleman will be about again.

SERIOUS ACCIDENT.

Hon. Bob, Read Thrown From a Wagon and Seriously Injured.

Yesterday the Hon. Robert Read went to the rear end of his farm to bring back a load of hay, and was accompanied by two of his men. On the return the horses became frightened and ran into a very deep ditch, upsetting the load. Mr. Read suffered a bad cut on his head and shoulders. The men were also hurt, but slightly and the other so seriously as to be unable to walk at all.

He is to be seen at the hospital from 10 a.m. to 4 p.m.

The standard time goes into effect to-morrow at 8 p.m.

The trains last night, and this morning were behind time.

A FURIOUS gale blew during the greater part of the night.

The youth of the city now abhors them, and is in no condition to go to bed.

(Or 40 engines stationed at the G. T. R., have 20 more).

A terrible gale will come into effect on the G. T. R. to-morrow.

Moos, Oars, the weather prophet, forecasted us with a call last evening.

The ice from the seashore to the east side of the river can now be crossed with safety.

BELLEVILLE, MONDAY, NOV. 19.

WOMAN SUFFRAGE.

As the first journal to advocate the extension of the franchise to the women of Canada having the same qualifications as men, the INTELLIGENCER naturally takes a warm interest in the subject. Recently a delegation from Mr. MacLennan, who represents the demands of Ontario by the new Franchise Act which will probably be introduced at the forthcoming session of the Legislature, The Attorney General made a short non-committal speech, expressing a certain degree of sympathy with the object of the delegation, but stating several objections, and promising nothing. The Hamilton Tribune thus pointedly commented upon the speech of the professor "Liberal" Mr. Fisher during his heating over so important a reform, while the Conservative Premier has already pledged himself to carry the project into execution.

Mr. Mowat writes to Sir John Macdonald: "Mr. Mowat considers the petitions in favor of woman suffrage. He is of opinion that Mr. Meredith may take action. The latter is far more powerfully informed of this question than Mr. Fisher."

Women in school board and municipal elections have been allowed, and the party is now pledged to women suffrage for parliamentary elections as well. But neither Mr. Mowat nor Mr. Fisher is satisfied.

The interests of men and women are identical, says Mr. Mowat. "What he means by this is a secret to us. If he means that Mr. Fisher and Mr. Meredith may take action, The latter is far more powerfully informed of this question than Mr. Fisher."

Mr. Fisher thinks that no person professing democratic principles could deny the franchise to women. Mr. Mowat does. Does it therefore follow that a Conservative though he calls himself a Liberal?

The facts, Mr. Mowat is afraid that a large majority of the ladies are Conservatives. It has been the general opinion of the reformers that women would not exercise the franchise if it were conferred upon them. The argument is too far-fetched. The question is, Is it fair and just to extend the franchise to females? Public opinion is, we are convinced, in favor of such an extension of the franchise, and it is for the ladies themselves to exercise it or not, as they see fit.

THE C. P. R. GUARANTEE.

The Montreal Journal of Commerce, although rather inclined toward the Girls, is yet far enough and patriotic enough to approve the action of the Government in the matter of the guarantee to the Pacific Railway. The Journal says: "The New York bears are leaving no stone unturned to damage the Canadian Pacific Railway; and although we have in Canada numbers of politicians who would like to injure the Pacific Company in order to damage the Government, the latter, desirous of success, yet the hostile parties are driven to take opposite ground. In Canada, the cry has been and still is that the Government has granted to the Canadian Pacific Company such advantages as tends to those interested in like to make enormous profits. On the other hand, the New York bears represent the Canadian Pacific Company as having received so little from the Government that they are wholly without the means of fulfilling their engagement. Both assertions are unreliable, and for obvious reasons: the New York bears have in view to depreciate the stock as much as possible for speculative purposes, while the opposition journals feel it is a safe question on which to base their attack. The Government and one likely to overturn the franchises of the masses. As to the Canadian government, we have merely to repeat that we are unacquainted with the precise details of the bargain between the Government and the Company, but we feel assured that the Government will have ample security for its guarantee; and, on the assumption that it is well known that there can be no doubt that it will be secured by public opinion in aiding the Canadian Pacific Company.

The Montreal Times also has an article on the subject, in which it says: "There will be some economy in depositing only nine millions at the outset. It would be useless to pay money to guarantee the whole of the balance of the stock before it is issued; it will be quite enough to have ten millions for which the guarantee is provided in advance. Of course the arrangement is made to suit the convenience of the company. The company is, in reality, its own guarantor. It is in the position of a man who pays a sum of money into court to meet a future claim. The Government, however, will give assurances that it will be there when the money deposited is required."

The company could not have kept so large a sum idle, at its credit in the banks; and if it could, the effect would not have been to inspire the public with the same degree of confidence.

"No one can be injured by the reduction of the amount of the first deposit. To all the stock that has been issued the guarantee

extends. It would, of course, have been possible to cover with the guarantees the portion of the stock which remains to be issued; but the effect of that would have been to take two chances of safety, one in respect to the amount of the stock to be undertaken to provide the means of guaranteeing the whole of the stock. The Government apparently takes the position of a secured guarantor."

EDITORIAL BREVITIES.

The Montreal Herald very sensibly follows the unusual reports of the telegraph wires respecting the Canadian Pacific. It states of a threatened rebellion in the North-West, and reports to be largely considered for a moment. They are probably offshoots of the New York "bear" movement, which has broken down the value of Canadian Pacific Railways stock."

The Peterborough Review thus shows the dishonesty of the claim put forth as to the entry by the new Provincial Treasurer in his nomination speech.

Next to this comes what does Mr. Ross mean when he says it is a surplus of revenue expenditures since 1867, or since 1871, or is it a surplus of revenue since 1872? We are not particular in what way he takes it, because no matter what the way is taken, he good his statement. From the 1st of August, 1867 to the 1st of December, 1872, the gross revenue of the Province has increased by \$2,000,000. So that it is a surplus of "nearly \$8,000,000" of revenue over expenditure.

Again, we have a surplus of revenue over expenditure since 1871, because the gross revenue of the Province has increased by \$2,000,000 since 1867.

A few days ago we received the annual report of the British Columbia Commissioner of Marine to inform a Committee of the Chamber of Deputies that offensive operations in the United States had caused the exception of a number of vessels to be sent to the port of Victoria.

Calgary, Nov. 10.—The latest news from Klan Town has been received by H. Prince's Pacific Coast representative.

A vessel has been dispatched to St. John to discover the fate of the British Commissar, Commander Macmillan, of the Royal Navy, who is missing.

ST. JOHN'S, NOV. 19.—A nihilist paper

says that terrorist outrages in South Russia are increasing, owing to the deportations of the rural population. Conflicts between peasants and landlords, calling for military intervention, are frequent.

CLEVELAND, Nov. 19.—The Garfield movement fund now amounts to between \$25,000 and \$30,000 and the collections made by the Knights of Columbus will probably swell it.

GLASGOW, Ohio, Nov. 19.—Felix Rodriguez wife and five children are dangerously ill. It is supposed that some malicious person put poison in a tub of baked beans. Two of the children will die.

DAYTON, Ohio, Nov. 19.—Numerous outrages are reported to have occurred in the insane asylum here. Some months ago a colored patient was buried in a bathtub so hot that he died. The master was kept secret until Saturday.

DENVER, Nov. 19.—Last night several men were playing poker in a lawyer's shop. They became involved in a fight and a dozen shots were fired and Jack Windreden, a faro dealer, was hit. He died, it is alleged, by Tom Yeager, another dealer.

BALTIMORE, Nov. 19.—Zeno Haywood, of Philadelphian, attempted to shoot herself yesterday, fired seven times, and one ball took effect: the wound was serious. She is a widow, a daughter of a deceased man, and expects to become a mother. She says Haywood is her husband's stage name, and that he is a member of a wealthy family in New York.

DETROIT, Nov. 19.—Last night several men were playing poker in a lawyer's shop. They became involved in a fight and a dozen shots were fired and Jack Windreden, a faro dealer, was hit. He died, it is alleged, by Tom Yeager, another dealer.

It is reported that the St. Anne's cotton factory, at Hockley, with a full complement of hands, will resume work on the 26th inst.

PRINCETON, Nov. 19.—Interviews with all the leading Indian Manufactures show the whole to be greatly depressed and orders scarce. This state of affairs does not exist in all the departments. There is a good demand for sheet metal and certain kinds of hardware.

Some firms are running on double time to meet the demand. There is also a good call for heavy iron.

The iron working shops of the city are also doing a fair business, and the two main firms are running on double time to meet the demand.

There is also a good call for heavy castings.

—A colored R. C. Church—Overseas Steamship Stores Property Recovered.

NEW YORK, Nov. 19.—An old Universalist Church, on the corner of Bleeker and Downing Streets, was dedicated yesterday as the first church of the African Methodists in this city.

There is some anxiety regarding the steamer America from Havre, which is overdue nearly a week. The steamer Amer, from Liverpool, is also due.

MORE MENTION.

Two weddings took place here this morning.

The sleighing has disappeared from Front Street.

The city clock was set to meridian time this morning.

SKATING and coasting are pastimes which can be indulged in later on.

The cells were unoccupied during Saturday night, yesterday and last night.

YESTERDAY afternoon a young girl attired in boy's clothing masqueraded on West Bridge Street.

CORNELIUS O'BRIEN, who stole a pair of mitts from Owen Cummings, was to-day remanded for a week.

Mrs. B. LAURENCE, the celebrated Optician, passed the train at Montreal to-day, and will not arrive here until next Monday.

A lady's cloak was picked up near Christ Church last evening, the owner can get the same by calling at the Intelligencer Office.

The Chief of Police of Deseronto brought Richard Marcus here to-day for a month's journey with Gaoler Appleby. His offence was vagrancy.

The work of decorating the City Hall for the annual ball of the Brotherhood of Locomotive Firemen, was begun to-day. The ball will take place to-morrow night.

MARY ROACH, formerly of this city, but now of Ontario, V. A., is on trial in the County Court for perjury in swearing that she had delivered \$1,015 to one John Kelly for safe keeping.

PREFERRING FOR THE G.T.R. BALL.—We have pleasure in directing the attention of our friends that we have secured special lines of Evening Wear for Ladies and Gents, for the coming event.—DABER & LIPSTEIN.

The name of old Mr. G. J. Brown is now in possession of the old M. E. Church and will convert it into a moulding school. The roof is being re-covered with fire proof material and being put in readiness for occupation.

Two men named CORNELL O'BRIEN and OWEN CUMMING occupied the same cell in the police station on Friday night. The former stole a pair of mitts from the latter, and he was arrested on Saturday morning.

"THERE is nothing under the sun," says Mr. O'Brien, "which will be held to-night except the 'New Model Social,' which will be held to-morrow evening in the Bridge Street Methodist Church. Pumpkins and socials are to be the foundations of the feast."

It is intended, as soon after the opening of the new Opera House as may be possible, to arrange a suitable date giving a musical and dramatic entertainment for the benefit of "The Lodge Aid Society." The musical arrangements will be under the management of Mr. Oldham, the dramatic under that of Mr. Wm. J. Mitchell.

Weather Probabilities.

Tuesday, Nov. 19.—Lake, fresh breeze southward to southwest winds, fair to cloudy mid weather.

THE HOSE QUESTION.

The following letter was read at the last meeting of the Council:

BERWICK, Nov. 13, 1883.

To the Chairman of the Committee on Roads.

Sir.—The cotton hose here, by name Nipper, was made in the 27th of April, 1880.

We have had a number of hose made.

These hoses called garden hose, I think, are made in France, also from a practical test in the town of Paris.

There are two kinds of hose.

BELLEVILLE, TUESDAY, NOV. 20.

MERE MENTION.

There were no transactors in the Police Court to-day.

A single visitor registered at the Police station last night.

The slighing has disappeared and wheel-chairs are again in use.

Mrs. MARY ROACH, whose case was referred to in yesterday's issue, was found not guilty.

The work of painting the dial of the clock in the City Hall tower, was begun this morning.

The Annual Ball of the Brotherhood of Locomotive Firemen will take place this evening in the City Hall.

The School examinations were begun to day by Inspector Johnson. The Premium examinations will follow the above.

The members of the 15th Batt., A. L. I. will assemble at the Bridge St. Armoury to night at 7.30 o'clock for a special purpose.

Some boys who, on account of their misconduct, were ordered out of the Baptist Church last night, broke two paces of glass in that office.

Mr. J. D. McColl, whose left hand was amputated yesterday afternoon by Dr. Wilson, assisted by Dr. Gibson, is doing well as can be expected.

Mr. Wm. Brown, Evangelist, who arrived from Shanks, Isle of Wight, last week will (D. V.) hold a series of Bible Reading, in each Wednesday evening 8 o'clock, in the Tabernacle, Freeport.

The local agents of the Mutual Marriage Endowment Association of London are at the Queen's. All unmarried persons should call on them at once. \$1,000 certificates cost \$1.60 a month only. Two good ledges wanted for this city.

A "New England Social" will take place this evening in the lecture room of the Bridge Street Methodist Church. Musical and literary efforts will be sandwiched with pumpkin pie, fried cakes and tea and coffee, and the bill of fare throughout will be found worthy of discussion.

Weather Probabilities.

TORONTO, Nov. 20.—Lakes, south to south winds, generally fair weather, gusty or slightly lower temperature.

Died from his injuries.

ROBERT GREENLES, of Trenton, who met with an accident on October 23rd, in a Toronto bar-room, died on Sunday at the hospital from the effects of the injuries he then received.

Cheese Notes.

Mr. A. P. Reid slipped on the 29th the balance of his son's make of cheese to Wm. Davis & Co., Ltd., who paid him \$1.10 per lb. for it. He is the author of the two moulds. It is expected that Wm. Davis & Co. will open their cheese-office in this city early next season, with Mr. A. P. Reid as their operator.

THE LAW SOCIETY.

Mr. D. S. Walbridge has admitted to the Law Society as a student at law. Messrs. W. J. Taylor, W. J. Hanna, J. Stuart and F. S. Walbridge have passed as Solicitors and J. Burritt and W. J. Taylor as Barristers. The latter gentleman was presented to the Court yesterday, in the Michaelson settings. All the above are residents of this city and have the warm congratulations of their friends.

APPOINTMENTS.

THOMAS ROBINSON GAGEART, to be Clerk of the Tenor Division Court, Northumber-land and Durham, in place of Charles W. Smith, deceased. William Henry Richards, Smith's successor, 175 Church St., Toronto, or 13 Philips Square, Montreal, P. Q.

A Query Answered.

People ask me, "Is not the best time to take a blood purifier? We answer, the best time is now. Blood Bitter does its work quickly and thoroughly, removing all the bad humors from the system at all times and all seasons. Partly all things is always in order when required."

DRUGS.

Mrs. Elizabeth Mason—Dr. M. Sasseville & Co., Ltd., have just received a large quantity of Dr. Mason's Blood Purifier and in reply to your enquiry I have much pleasure in stating that from the first time of my taking it I have been greatly improved very much. The benefits have been so great that I have recommended it to many of my friends and they have all been greatly benefited by it. I am now in full health and I do not feel any pain whatever in my body, and if it does you no good, it will do you no harm. I am sure you will be greatly pleased with it."

PERSONAL.

To the Editor of the Intelligencer.

Nov. 19, 1883.

Mr. and Mrs. D. R. Leveson will leave here to-morrow for California. Mr. D. R. Leveson is a young man who is well known in the business world, and as to the value of the Pacific slope will have a tendency to improve it, we will see. We trust the object of his trip will be realized.

MARINE.

The Blazing Star, which was commanded by Captain John Hurley, formerly of this city, was insured in the Boston and Marine for \$6,000.

The vessel, which was sold at Grindon, has been released.

The steamship Regalence cleared to-day with 340 tons of coal.

The steamer Arrow, one of the top tugs, arrived this morning from Kingston, with 340 tons of coal.

The steamer Regalence and grain and will clear to-day.

The Forest Queen was at another morning off the G. J. dock.

A CELEBRATED OPTICIAN.

The remains of the late Alfred Ridley will be buried to-morrow afternoon with military honors. As an old member of the 18th Regt. he earned the esteem of his officers and comrades, and they will testify by their action the regard in which he was held by his countrymen.

ANOTHER PEST.

Farmers are now obliged to battle against another pest—wild pigs. They are supposed to have been brought to this section by pigeons or blackbirds, most likely by the latter. The pests are very prolific and the vines are devoured over field with great rapidity. They are more destructive of fruit and grain and very injurious to the growth of grain and particularly to barley. This pest is very destructive to crops in Prince Edward and Tynehampton but has not visited Sidney as yet. In some instances farmers have cut down grain with which these pests had grown and burned it. Owing to the existence of this pest a large demand for fanning mills has sprung up.

ORITHIATY.

The grim messenger of death at six o'clock has come again to visit us. The remains of Mr. J. D. Reeser, who at an early age lost his life in a fall from a bridge, will be buried to-morrow morning from the organ and bell.

Mr. Reeser was a young man of quiet and retiring disposition and possessed many amiable qualities. He was for ten years a member of the 15th Batt., A. L. I. and took part in the annual drill last year.

This year, that dreaded disease, consumption, from which he had been suffering for two years, took a strong hold on him that he was unable to go out with his company. He was invalided and his place was filled by a young man of equal energy and ability.

The celebrated Ossuary of Nova Scotia, Mr. J. R. McLean, says: "I would say in my opinion he is the best optician in the Dominion."

Almost the last letter written by Dr. Samuel, Dean of the Medical Faculty at the University of Edinburgh, to his son, Dr. Alexander, 18, will be sold to-day.

Mr. Launce is a skilful optician with a good reputation.

Mr. Thompson, of Ottawa, has just received one of his expert kinds, the "Regalence," a steamship built for the Royal Mail.

Mr. Thompson is thoroughly well able to correct the various defects of vision in those who may complain of him."

He has also testimonials from Dr. J. W. Macdonald, Vice-President Medical Association of Canada.

The Baptist Church Socire.

The tenth anniversary social gathering of the Baptist Church was held on Monday evening the 19th inst., the pastor, Rev. J. Stob, in the chair.

The ladies provided an excellent tea and there was a large company to partake of the good things provided.

After tea the Rev. Mr. Stacey Jed in prayer and the choir sang the anthem "The Earth is the Lord's." The Pastor then read a Scripture lesson which was followed by a solo from the organ.

Many of the boys were "hot" last night, as there was no meeting of the Salvation Army.

Captain Addie and Lieut. MacLachlan were married in Kingston.

The income of the Army since its establishment in Kingston is \$5,027.12, the expenditure, the same amount and the balance \$2,402.

The following members of the Belleville Salvation Army were in Kingston yesterday: Privates W. S. Addis, Fred D. Mott, Lewis Cook, Fred Beaumis and Robert Wetherpon. They attended the meetings yesterday.

Another Grit Unsated.

The Question of Disqualification not yet settled.

The adjourned trial of the South Front election case was taken up on Monday at Ogden hall before Chancellor Boyd and Mr. Justice Cameron. Judge Cameron delivered his judgment voiding the election and disqualifying Mr. Dowling with costs.

The Chancellor agreed in voiding the election, but reserved his decision as to the qualifications of the contestants.

THE BREAD-WINNERS.

I

A small note.

A French clock on the mantle-piece, framed of brass and crystal, which betrayed the inner structure as the transparent sides of some insect reveal their vital processes, was mounted on a stand, and the chime of a distant cathedral bell, A gentleman, who was seated in front of the fire, was looking at the clock, and said to me, "I am sure that hour it was, to save him the trouble of counting the chimes, now struck. The eyes he used were light and clear, and I could see them through his shaded features as black as jet. The hair was also as black as hair can be, and was parted near the forehead. His eyes were pale, and seemed to curl, but had not the length required by this inclination. The dark brown mustache was the only ornament about his mouth, and the nose was prominent. Any one who has ever had a person like this in his house, will have the greatest confidence. I am happy to say it effected instant relief and that I am still here to thank you for your wonderful S.A.F.E. Cure. After such an experience, I can most heartily recommend it to all sufferers."

THE BREAD-WINNERS.

A moment afterwards the rustle of a faint step made Farnham raise his head suddenly from his paper. It was a quick, elastic step, accompanied by that sharp intake of breath which always betokens the approach of ladies practised at that season. The door opened, and another viscountess entered the room, accompanied by a maid-of-honour. She began to lay her glassess, which were lying in her lap. Farnham picked up his photograph from the table and laid it aside.

Do you recognize this?

"Yes," she said, "it is General Grant." It was a surprised expression, before in Paris, which I received today.

What is it?" she said, shyly.

"I am offering these gloves. They are of no use to you, and they will injure your complexion."

Her face turned crimson. Without a word of reply she seized the glasses and laid them on her eyes flashing fire. She then turned to Farnham, who had been silent and said, in a tone to which her repeated anger lent a real dignity:

When can I learn about that place in Paris?

The time after Wednesday, Farnham answered.

She bowed and walked out of the room. She could not indulge in tragic strides, for her dress held her like a straight, saving her more trouble, though she had a very slender figure. Her hands were clasped behind her back, and she stood in a pose of repose, with that grace which is the birth-right of every woman in circumstances, of the thorough-going, bold, and frank.

Farnham, however, was too much absorbed in his own thoughts to notice that she was neither especially ornamental nor new, and she could not afford to let it conceal her dress.

It represented not only her beautiful figure with few reserves, but also her skill and taste, and her taste had been fully developed by the study of her paper, had fashioned and sewed it with her own hands; she knew that it fitted her almost as well as her own skin.

He had a great many articles of clothing, the style was very nearly the same that she wore the same day on the blouse and skirt, and the blouse was completed by a pair of drawers with steel rings, which looked cool on her young face.

"I didn't send my name," she began with a hurried and nervous utterance, which she was evidently trying to make up and dash, "because you did not know me. From Ashland, where I have been trying to see you for some time, the time."

"I have lost my less, but you have not sent me any card, or given me any name, or say who you are. I have even forgotten the name of the lady who sent me this," she said, smiling and blushing.

"I called this morning—it may surprise you to receive a visit from a young lady. My name is—Maud Matchin."

"My name is—"

She laughed outright, and said: "I am very ill-bred, but I am what you are, or say who you are. I have even forgotten the name of the lady who sent me this," she said, smiling and blushing.

He made no reply to her compliment, but looked steadily at her, waiting to hear what she had to say, and thinking it was a pity she was so vulgar, for she looked like the hunchback.

Her eyes fell under his glance, which was not at all reassuring. She and in almost total silence.

"I have come to ask a favor of you. I am in a good deal of trouble."

"Let us see, what is it? I am what we do not know. Farnham, there is no longer any banty in his voice.

She looked up with sudden pleasure, and then closed her eyes. She did not speak again, clasping her hands tightly together, exhaled.

"Oh, sir, if you can do anything for me—I don't want to make you think I am a bad girl, but I am."

She was evidently confused, and Farnham kindly interposed.

"What I may think is not of any consequence now. What is it you want, and how can I help you?"

"Oh, it is a long story, and I thought it was so easy to tell, and I find it isn't easy to want to do something—to help my parents—I know they do not need any help, but I have a lot of things to tell you."

"She was now stamping and blushing in a way that made her hate herself more and more, and the innocent man in front of her, leaning over, just put his hand manifestly and concluded, "I might say I would help you get something I would like."

"What would you like?"

"Most anything. I am a graduate of the high school. I write a good hand, but I don't like figures well enough to clerk. I have a lot of good places in Washington."

"I could do nothing for you if there were, but you are wrong—they are no good here in Washington, from the White House down."

"Well, you are president of the Library Board, and you're asked the high-school girls, and I think I would like to be one of the librarians."

"Oh, the work is like mine, and you can get plenty of time for your work."

"I want to be a teacher, but I have got the best part. I could get anything else, but I don't like figures well enough to clerk. I have a lot of good places in Washington."

"I want to be a teacher, but I have got the best part. I could get anything else, but I don't like figures well enough to clerk. I have a lot of good places in Washington."

"I could do nothing for you if there were, but you are wrong—they are no good here in Washington, from the White House down."

"Well, you are president of the Library Board, and you're asked the high-school girls, and I think I would like to be one of the librarians."

"Oh, the work is like mine, and you can get plenty of time for your work."

JOHNSTON'S

SARSAPARILLA

FOR LIVER COMPLAINT, DYSPEPSIA,

AND FOR PURIFYING THE BLOOD.

In this Johnston's Sarsaparilla we have
proven to be the best preservation in
the market. It is the only genuine
SARSAPARILLA, and all Diseases
that arise from a Disordered Liver or an
Impaired Blood Supply are removed by
it, and it gives to them their chal-
lenging power. It is the best Remedy
to be had for those who have no
one to whom to recommend it. It cures
all Diseases of the Liver, and
SARSAPARILLA, Wild Cherry, Senna, and
other well known valuable Roots
and Medicines. It is strictly vegetable and can
not be equalled. It is one of the best medicines in use for
Dyspepsia.

It is sold at regular drug stores
at twenty-five cents per bottle, six
bottles for five dollars.

Those who have a bottle of this may
use it now, and will see the result.

HEALTH IS WEALTH.

Dr. J. C. Clarke, New York and
Montreal, has given us the best
remedies for Nervous Prostration, caused
by the brain, heart, lungs, kidneys, liver, etc.
Mental Depression, Nervousness of the Brain,
restless in Heart, and leading to misery,
that is, the loss of power in every organ.
The nervous loss of power in every organ
is the cause of the brain, self-same, or over
indulgence. One has will cure most cases.
Each of these diseases can be cured by
one dollar a day, or six dollars for five dollars;
but not much prepaid on receipt of price, with
prompt payment of account.

With each order received by me for six hours, an
order will be sent to you, and you will receive
a prompt and full refund of your money if the
remedy does not effect a cure.

BELLEVILLE, FRIDAY, NOV. 23.

MORE MENTION.

More men lost last night.
Two arrests were made last night.
Snow windows are beginning to blossom with holiday goods.

Roller skating is rapidly becoming the fashionable exercise.

A literary entertainment will be given by the young people in the Tabernacle, this evening.

The man who is pointing the hands and dials of the city clock attracts a good deal of attention.

GEORGE L. THOMAS, an old resident of this city, died last night, in his 65th year. He leaves a numerous family.

The two policemen of Trenton are to resign on the 1st of December, and Mrs. Colman, who was formerly Chief, will be reinstated.

In the Police Court to-day, Edward Kelleher, drunk, was dismissed, and Charles Lapier, a vagrant, was accorded his liberty.

M. LAURENCE, the celebrated Oculist, will only remain in the city during to-morrow so that all those whom his services will benefit had better call upon him without delay.

George's lawn, which star for a long time owned by the Morris estate, changed hands a few days ago. The name and pedigree of the purchaser is not generally known.

The Court of Revision was announced to meet at four o'clock this afternoon and the Executive Committee are expected to interchange opinions on matters that will be presented to them, to-night.

A military schutzen is the latest. It is the same old step with a hop, skip and jump, and jump-sing-Jane variation introduced to give variety. It is almost as graceful as a woman climbing over a fence or getting out of the way of a mouse.

CHARLES OR TIME.—By the request of many the horses and carriages driving through the streets as the Hotel Hall has been changed from 8 to seven o'clock. This will give an opportunity for some to attend who have sold out before so do in the past on account of the late hour. Mr. Wm. Brown, from the side of Wright, will (D. V. preach at the above place next Sunday evening at 7 o'clock. All are welcome.

WEATHER PROBABILITIES.

TORONTO, Nov. 23.—Lakes, moderate to fresh east to north winds, cloudy to fair weather, with light rain, slightly lower temperature.

DROWNED.

It is now an almost settled fact that William Hayes, 30 years of age, widow of Mrs. Catharine Grace of this city, was lost in Lake Michigan during the storm of the 11th inst. He was acting as fireman on the tug *Predator*, and that craft came disabled during the gale of the date named. It is said that General and the Captain of the tug, when they saw that they could go no further, took the party and left Hayes to his fate, and were drowned. The remainder of the crew stuck to the boat which was washed ashore and they were saved. Grace followed the calling of her father, who was killed here during the rebuilding of the schooner *Mary Foster*, and was a warm-hearted and generous young fellow. His brother Simon is supposed to have been lost at sea during a gale two years ago. At last accounts he had not been recovered.

A Cure for Cut Sores, Etc.

The finest healing compound under the sun. Mering's Park's "Cure" is the best. There is nothing like it. It is an invaluable dressing for cuts, sores, ulcers, &c., &c. Retail Drug Store, A. L. Goss, Wholesale and Retail Drug Store.

Another Witness.

A Guard of Stirling, before the Alleged H. Hayes' Yellow Oil, which the West Indies, Cuba, & other countries, and is used internally and externally with infinite success.

The Canadian Stock Barber's Journal

Stevie, the first of a new journal whose motto is "Truth, Integrity, and Justice." It is now published and deserves of patronage. Published by the Stock Journal Company, 48 John Street south, Hamilton, at \$1 per year.

THE ARMY.

The numbers of the Salvation Army gained out last night and engaged in the customary exercises (including knapsack drill) on the Market square. The "band" was reviewed last night with a triangle, and as the soldiers walked to and from the square they attracted the attention of all who were there. There was excellent order at the meeting last night, for no blustering value.

PROPS' PREDICTIONS.

Or the 136 predictions for the Lower Lakes issued by the Weather Bureau during October, 1863 were fully 30 partly and 13 not verified. The percentage fully verified was 75.7 and of verified fully or fully 90.4. During the month, warnings on the approach of tempests were issued, and cautionary signals duly displayed by the stations. Rev. W. B. Norcross delivered an appropriate address. Misses Browne, Burford and Walker sang a couple of duets in a very pleasing and effective manner and Professor Chalapka played a violin solo, which was very neatly rendered. Mr. R. M. Roy's contribution to the program was the feature of the evening's enjoyment. He instructed the cabinet track, the despatch saddle-horn and the Rhythmian mystery, and his acts brought forth general commendation. Bro. Allan Goss gave a recitation with a handsome copy of Longfellow's poem. All was presented by the Chairman with a handsome silver trophy.

The evening was one of the pleasantest that has been kept here by the brothers of St. and their friends.

THE BREAD-WINNERS.

Farnham gazed after her a moment, and then returned to me I was a woman and was unable to work. My symptoms were terrible. That dead, aching pain in my head, limbs and joints, and I felt a lack of energy such as I had never known before. I had a severe attack of Malaria can appreciate my condition. As I lay there I could not help but feel that I had the greatest confidence in you, and that I was well to-day through the influence of your skill and knowledge which such an experience I can most heartily recommend to all who have

"If you please, sir," he said, "Mr. Helding soon came over to ask what you thought that you could do for me?"

"I told him you were engaged."

"Ah, very well! Say to Mr. Helding that I will come with pleasure."

Miss Matchin picked up her train as she reached the gate, and walked down the street in a state of mind by no means tranquil. She had put her thoughts in words, and had never called her anything else. Thousands of costly dangles all over this broad land had been cast aside in the name of Matilda, and not only early in the morning, but at noon, Matilda's quiet smile was still worn, and then having closed her mouth again to Matilda, for reasons

she was a heavy, hulky little girl. Her father delighted in her coarse vigor and energy. She was able to hold her own, and had a great deal of capacity in her, apparently liked to play with the boys without being afraid of them, and in their rough sport; and good natured as she was, she was able to defend herself on occasion from a stronger girl. She had full life and strength, though she had no play to do; she took pleasure in helping her mother about her work, and in her studies. Miss Matchin had seen the stout little figure sweeping or scrubbing. She went to school but did not learn enough to satisfy her, so her father had given her the task of teaching the child, would be one child who would be a comfort to him. In fancy he saw her, in a mat print dress with wide cap, standing in the doorway of their home, he had helped to build or coming home to keep house for him when her mother should fail.

Attention is directed to the unscrupulous sale of household effects, piano, etc., at the residence of Samuel Ross, Esq., Church St., three doors north of Hotel St., on Tuesday, Nov. 28.

The attendance at the meetings of the Salvation Army on Saturday and Sunday evenings was very large. About 300 attended the services on the Market Square yesterday afternoon.

Mrs. Oates asserts that the weather will be cold for a few days and be followed by a mild spell. There will come a period of sharp winter hating till Dec. 1st, when a generally warm wave will set in for ten days or more.

His Worship the Mayor and Ald. Pope, with the gravity becoming the magisterial functions they assumed, dispensed justice and when Christopher O'Brien, who was charged with stealing a pair of mittens and a cap, was brought before him, he was sentenced to be tried at the next Court of competent criminal jurisdiction. The Clerk wrote on the commitment, the Court signed it and Officer Hayes furnished the escort to the County Gaol.

THE MAYORALTY.

It is generally reported on the street that Ald. J. G. Frost will be a candidate for the Mayoralty for the coming year.

Mr. Frost has always led the poll in Colquhoun Ward for Aldermanic honors, and should he succumb to the solicitations of his friends and become a candidate, he would doubtless pull a good vote.

PERSONALS.

MR. AARON STEARNS, one of the most prominent buyers on this continent, was in the city today.

Mr. Wm. Hudson, of the firm of Hudson & Fellows, brewer, is in town.

MARINE.

The *Intelligencer* was towed into Shannaville by the tug *Brilliant*.

The *De Friesen* is loading grain at Napanee.

The *E. & C. Peacock* passed up to Trenton yesterday and the *Foxon Corlett*, *Ford* and *Ward* came along with *Ward*, this morning.

The *Levi* is now at Port Hope loading stone. As the Jersey steamer *Merle Ebel* was about to enter the slip this morning, the wind caught her stern and her steamer bow came in contact with the pier. The *Levi* was held fast by the tide and one of her stanchions was broken and a portion of her siding broken into splinters.

A WRONG Opinion.

Many a doctor is paid for prescriptions for some disease that never troubled the patient, and when Christopher O'Brien, who was a few of Freeman's Worm Powders would remove. Those powders are pleasant, safe, and effective, and I would like to see them used for children or adults.

A Cure For Cuts, Sores, ETC.

The *Vinegar* healing compound under the sun, Mcgregor's Metamorphosis Salve, and found that I had to go to New York, Philadelphia, Louisiana or Texas to find living creatures that could not be cured by the right herbs to prove its merits. I was as bad as Billie Fifer and Bridget, and I could not be cured by them. I have taken three bottles and am still as bad as ever. I have been to Dr. Wm. Pack, and the Rev. E. Craig official prayer. We all unite in wishing the venerable mother of one of the most respectable and esteemed families in the country a happy return of her natal day. It would be well if this example of chousing honest old age was more frequently practised.

AN HOTEL BURNED.

DESTRUCTION OF THE CAMPTON HOUSE.

NARROW ESCAPE OF GUESTS.

NAPANEE, Nov. 26.—About half-past eleven o'clock to-night the alarm of fire was raised at the Campton House, the largest hotel in Napanee, and before the flames had impinged upon the building, it was surrounded by a crowd of persons, mostly women, who had gathered to witness the spectacle. The guest were all safe, though many of the present inmates, I take the liberty of advising them to introduce the "Royal Hotel" as their permanent abode.

(1) The hotel keepers are up to the mark, and labor with never failing zeal in the service of God and the church, impressing the whole community with the sincerity of his convictions and the fervor of his piety. Whatever may be thought of the prudence of his conduct, lastly, it will scarcely be denied that he has been earnest and conscientious. May prosperity attend his footfalls wherever he goes.

An Upset and What Followed.

On Saturday evening, a *rog* containing an old gentleman and two ladies, upset opposite the Ferry House, and the latter were thrown in a mud puddle on the road. They were taken into the hotel, where they received necessary attention. Shortly after, a man, who had been drinking, said that she had lost a ring and time advanced the "golden circle" became more valuable. She was sure she had had it on the table and when search was made it found it where she had buried the dish in which she had washed. The ring would probably have had a diamond setting by this time had it not been found.

MINISTERIAL ASSOCIATION.

A very interesting meeting of the Association was held this morning.

Rev. Mr. Williams, the new President, read his inaugural address, which was ably discussed and referred to published.

The following resolution was unanimously carried:

Resolved, "That the Association do sine hinc hunc place on record its high appreciation of the services of Rev. Messrs. McLean and McVey in their respective offices as President and Secretary during the past year, and also to express their gratitude for the useful work done for the Association by these brethren."

WEATHER PROBABILITIES.

TORONTO, Nov. 26.—Lakes, and upper St. Lawrence east to south gales with mud clouds to rainy weather to-day, following to-night by west to north-west gales, decidedly colder weather with local gales and snow.

THE SALVATION ARMY CONdemned.

Strong Resolution Passed by Church of England Ministers.

The quarterly meeting of the Bay of Quinte Unional was held in Napanee last week. Eleven speakers, men and women present, including the Archdeacon of Kingston, who presided.

A letter from the Rev. J. W. Burke, Rector of Belleville, Ontario, who was by unavoidable parochial duties unable to attend the meeting, brought the subject of the "Salvation Army" before the Union. This was a strong protest against what we presume to be all such "fanatical movements, and urging unflinching opposition on three grounds, which were dwelt on at length:

First, because the whole thing is schism.

Second, because it is profane and even blasphemous.

Third, because it is eminently dangerous to souls.

The Archdeacon then laid before the members a letter enclosing all the papers connected with the "Church Army," a kind of rival in England to the "Salvation Army," and which is endeavoring to reach the same class of people on the more sober lines of the Church of England.

"The Church Army" is under the direction of the Rev. W. Carlyle, an eminent clergymen lately of Kinston, one of the largest parishes in London. After a prolonged discussion on a consideration of the Archdeacon's "Salvation" or "Saved" or "Church," from a variety of standpoints—the following resolution was offered by R. Dean Kirkpatrick and unanimously adopted:

A PROSPEROUS SECTION.

Times may be hard, but the tariff may oppress the farmers, as some contend, but the evidence does not sustain such a contention. We presume the 2nd Concession of Thurlow and Tyendinaga, between Belleville and Shannaville, is an average farming community in this section. A recent drive through it convinced us that the residents are prosperous and have money to invest in important and substantial improvements. We can see no less than twenty-five stone brick houses built in the last year, the most expensive, six of which were erected during the present year. Nearly all these new houses cost from \$1,000 to \$3,000 each, and have outbuildings of corresponding value. The last log house gives place to a fine brick residence on the farm of Mr. McLynn, who will occupy his new and comfortable home before Christmas. When we consider that the distance mentioned is over nine miles, the record we make is indeed creditable to the farmers of this concession, and indicates the fertility of the soil as well as the industry and frugality of the occupants. We would like to hear from other concession in this respect, and as we have no time to make an inspection, perhaps some of our friends will contribute the desired information.

ALBURY CORRESPONDENCE.

On Friday, the 22nd of Nov., Mrs. Peter Dempsey attained the advanced age of 86 years. She is with one exception, the oldest person in the Township, and is remarkable for her frankness and vigor of mind. Her children are all dead, but Mr. Peter Dempsey, is fast verging on his hundred years and ten, and by strangers would never be regarded as the child of the half a century old lady of whom we write. On the anniversary of her birthday her children, determined on giving the venerable matron a genuine surprise, and such it was to all intents and purposes. The company numbered 32, though had all her descendants been present, they would have flocked to the house to do honor to the aged.

"The young lad infatuated, who gave his note to contribute \$50 if the Provincial show would be given in his name, and who afterwards secured the note and gave it, and who afterwards sent the note and tore it, has been arraigned before the Police Magistrate and committed for trial.

Daily Intelligencer,
THE BREAD-WINNERS.

She delighted in the New York society journals. She would pore for hours over these wonderful columns which described the weddings and the receptions of rich and famous people. She had a library of names which she read with infinite glee to. At first all the names were the same to her. Then, as Louis' throat grew white, even the mountains in Romania were attacked by children. The robbers knocked him down and cut his nose off with a knife. Louis' throat was cut, but only the wind pipe and esophagus, or gullet, were severed; the jugular vein was still intact. The robbers, thinking he was about to suffocate, cut his nose off again. He still breathes through the hole he made in his cheek. He also takes much of his food through the opening of his esophagus. He has spent the past year in a hospital, recovering from his injuries, and is now taking a similar tour of this country. Medical men take much interest in the case.

Likely Lightning. — The real action of the "great pain cure," Louis N. Y., on the 20th inst., is probably the only living man who has had a thrill like that of being struck by the neck twice. He is a native of Posen, and in 1875, at the age of 21, he became a wine merchant in Bucharest. In 1877 he went to the Carpathians, where he was struck by lightning, and was severely injured. The robbers, thinking he was about to suffocate, cut his nose off again. He still breathes through the hole he made in his cheek. He also takes much of his food through the opening of his esophagus. He has spent the past year in a hospital, recovering from his injuries, and is now taking a similar tour of this country. Medical men take much interest in the case.

I am happy to say that I am now well and will stay through the influence of Warner's Safe Cure. After such an experience I can most heartily recommend it to all sufferers.

What the Great Fish Culturist Says:
Last winter I went to Florida, and while there, I visited Melkior in a very severe form. When I returned home I went to bed and remained there until the end of the month. I had dull, aching pains in my head, limbs and around my body. My appetite was very poor, and I lost weight. I had no desire to eat, and had no strength to do anything. But after a while a strong intelligence began to assert itself, and she won't stop the long rolls of obscure ghosts who figured at the "Savannah" pageant. She wants to go to the scenes of faded youthful ambition, to revel among the gaudy swells whose fathers were keepers. The reports of the battle of the Crimea have been published in the United States. Many Americans will appreciate my condition. As I failed to get any better before I came to America, I am sure you will be able to help me. I had the greatest confidence. I am happy to say that I am now well and will stay through the influence of Warner's Safe Cure. After such an experience I can most heartily recommend it to all sufferers.

A Remarkable Experience.

Louis Lemondre, a Bohemian, was in Syria
cuse, N. Y., on the 20th inst., is probably
the only living man who has had a chest
attack so violent as to last for two days.
He is a native of Posen, and in 1875, at
the age of 21, he became a wine merchant in
Vienna. In 1877 he was struck by lightning
while crossing the mountains in Romania, where he
was attacked by children. The robbers knocked
him down and cut his nose off with a knife.
Louis' throat was cut, but only the wind pipe and esophagus,
or gullet, were severed; the jugular vein was
still intact. The robbers, thinking he was about to
suffocate, cut his nose off again. The robbers,
thinking he was about to suffocate, cut his nose off again.
He still breathes through the hole he made in his cheek.
He also takes much of his food through the
opening of his esophagus. He has spent
the past year in a hospital, recovering from
his injuries, and is now taking a similar tour of this country. Medical men
take much interest in the case.

Guaranteed. — The reports of the battle of the Crimea have been published in the United States. Many Americans will appreciate my condition. As I failed to get any better before I came to America, I am sure you will be able to help me. I had the greatest confidence. I am happy to say that I am now well and will stay through the influence of Warner's Safe Cure. After such an experience I can most heartily recommend it to all sufferers.

The members of St. Andrew's Society met last night and completed arrangements for their annual dinner.

A STORE of three joined Committees of City and County Councils on the Industrial Farm project, will be held in the Committee Room at the City Hall this evening.

In the report of Prof. Bell's analysis an error occurred. Instead of parts to the gallon and grains in 10,000, it should read grains to the gallon and parts in 1,000,000.

HOLIDAY goods are beginning to appear in the show windows. They bring serious thoughts to the young man who wishes to receive a small salary and a handsome present.

Weather Probabilities.

TORONTO, Nov. 26.—Lakes, strong winds and gales veering to northwest and west, fair decidedly colder weather, with a few snow burrs.

Congress.

Mr. Jas. Conger is going nicely.

Mrs. Moyes is reported as being out of danger.

Mr. A. W. Ponton is doing as well as could be expected.

PERSONALS.

We learn with satisfaction that Mr. John C. Rose, Esq., has been appointed a Judge in the Common Pleas, as successor to Mr. Justice Mr. F. R. Bell, who has just retired. Mr. Rose studied law before passing at the Middle Temple Church, commenced his studies in the office of Mr. John Bell, Q.C., and is the youngest Judge ever appointed to the Bench in Canada. The people of Belleville naturally take a warm interest in Judge Rose, and we heartily congratulate him in his deserv'd promotion to the bench.

Mr. Thomas Holden is expected home to-morrow.

Speaker.

Nov. 26, 1883, 1883.

The cable registers 60s., against 55s. in '82, 66s. in '81, 64s. in '80, and 49s. in '79.

The shipments from Montreal last week were 21,643 boxes, and from New York 25,564 boxes.

SUPPORTING NOTES.

The Kingston News advocates a uniform period for the opening of snipe, woodcock, duck and prairie grouse. Good, and the proper date is the 1st of September. Our contemporary also urges the abolition of duck shooting in spring. Good again. Without this latter reform there will soon be few ducks left, and sportmen all over the province ought to petition the Legislature to that effect.

The Toronto News.

This journal now publishes morning and evening editions, the former at 2 cents and the latter at 1 cent. The News is a lively newspaper and its tone is strongly democratic. It is now published by Mr. E. E. Shepard, who exercises a great deal of energy in the conduct of the News.

If you are troubled with a "hacking cough," Dr. Elmer will give you relief at once. Dr. Elmer is as recommended, or money refundable. Price, 25s., 50s., and \$1.00 per bottle.

A Correction.

The following appeared in the *Daily Spy*, on the 26th:

Mr. Wright of Madoc, who was injured in a collision between a team and a train on Saturday, has sent an account of the Midland Railway for \$1,000 damages. The railway and Coal, Clay and Pottery train on the morning of the collision, and houses consequently happy and profane, except in making drunken-robber men and women. They are not to be blamed, however, for their sins, then, indeed, they ought to be dead with according.

BELLEVILLE, Nov. 27, 1883.

In reply to my challenge to Mr. Powley I instance a communication from him in yours of the 22d, in which he makes no suggestion as to the cause of the accident, and which I have accordingly omitted.

The Peterborough Standard says:

"Mr. Macdonald, the contractor for the Trent Valley Navigation works at Fenelon Falls, has made satisfactory progress. He has just obtained the services of a diver to place the bridge abutments.

"Mr. Macdonald, Mr. Macdonald, the contractor of that section, has completed the excavation for the locks and canal, and has a large force of men quarrying stone for the locks.

The Snow Show.

Mr. C. Robinson, Q.C., moved on Friday before Mr. Justice Armitage to quash a conviction made at Guelph last winter against him for wilfully obstructing the snow men from his sidewalk. The conviction was handed up by his lawyer of the town of Guelph, passed in pursuance of the Municipal Act. The chief ground, against the conviction is that the by-law is invalid, in that it authorizes the imposition of a penalty in case of a breach of its provisions. It was urged that a municipality cannot impose penalty, but in case of neglect of the by-law it must see that the snow is cleared off, and then assess the penalty to the expander. Mr. J. Scott, Q.C., supported the conviction.

Yours respectfully,

Salvation Army.

To the Editor of the *Intelligencer*.

Mr. Kinnon, Rev. Mr. Burkett "Salvation Army" is not schismatized because they cause no harm in any church. And, other than the fact that the Midland Railway is for \$1,000 damages. That is the only reason why the Bishop would leave and praise them. Not, dangerous to souls, except in making drunken-robber men and women consequently happy and profane, except in making drunken-robber men and women. They are not to be blamed, however, for their sins, then, indeed, they ought to be dead with according.

BELLEVILLE, Nov. 28, 1883.

I am in your issue of yesterday evening to ascertain whether a certain clerical union has passed a resolution commanding the Salvation Army. At least, I am doing my part in the ceremony. I have been a frequent attendant since they came to the city, and long have tried to express my humble opinion.

I am a member of the Committee on the Industrial Farm, and am a member of the same club as many who help people will acknowledge, who do not work, taken to the head, talk to us, reason with us, and induced to think from sin and lead a better life.

Christian efforts are fully appreciated, in the fact that young girls can command an audience, right after night, afford that which our laundries cannot obtain during a week. I see the value of their efforts, and I am anxious to see what the effects will be.

Laurel is with the next week.

I think the teaching of Christ is an impetus to the "purple and blue" element today as it was in the days of old. The world is becoming more Christian, more Godly, more honest, more true to God.

THE BREAD-WINNERS.

"Don't you know?" repeated the other. "I thought everybody knew the elegant Captain Farthing. He is president of the Farmers' Union, and not lastly, I always manage them until spring. My symptoms were terrible. I had diarrhoea, constipation, and my appetite was wholly gone, and I felt a lack of energy such as I had never known before. I was very nervous. Any one who has ever had a severe attack of diarrhoea will understand me. As I failed to get any better I determined to try a remedy made by a gentleman in whom I had confidence. Captain Farthing's medicine gave me perfect permanent relief and that I am well today through the use of it. I can say it is the best medicine I have ever taken."

"That would be perfectly splendid," said her friend, who was a good-natured girl, and who was very fond of Captain Farthing.

"And in a few days I was in the post office at Belleville. I entered at a fortunate moment. Dr. Burchell was a man of great good humor, and he would have been a good judge of what Captain Farthing looked like. He received and dismissed his visitors without troubling himself to discover or imagine what they looked like. They told him that he could have told how they looked, without even looking at them. 'They probably look as they talk,' without form and void.' But at the moment when Captain Farthing came in he put his glasses to his eyes to look out of the window, and he turned to see a perfect form in a closely fitting dress, and a face prettily composed of features that were very attractive. 'I received her kindly and encouraged her to wait for an appointment, and it was in accordance with her suggestion that she also called upon Captain Farthing, as we have related."

She did not go immediately. She took several days to prepare what she called "a little speech" to make, and when she was at work upon it she thought of many things.

"She was not even yet quite sure that she would place a pin in the library, where Captain Farthing was to give her clearly to understand that the work required of her would be done, and the very day after."
